DESIGNED FOR DURABILITY, AS WELL AS SUSTAINABILITY

With Baran Recycle series, we improve our recyclable product range in line with the demands of the industry and offer environmentally friendly solutions for a greener future.

MONO
MATERIAL

ALU
FREE

- ALU/metal free specifications with lower OTR & WVTR values.
- Mono-PE and mono-OPP implementations without compromising from the shelf life.

ECO FRIENDLY APPROACH

In line with our sustainability mission, we support circular economy by embracing eco-friendly procedures both in product and production, manufacturing durable and recyclable products, and helping the regeneration of the nature.

To this respect;

- We generate 100% of electricity from solar energy. Our goal is to reduce our environmental footprint by saving 30,000 tons of carbon emissions per year and to transform our world for a livable future for all.
- We are proud to contribute to the circular economy of flexible packaging as a stakeholder of CEFLEX!
- As a proud member of FSC®, we continue to work for a sustainable world with our FSC® certificate.
