Sealable Peelable Films

Heat Sealable Films

High Barrier Metalized

Twist Films

AIOx is a new Technology film with extremely high barrier properties suitable for end products with higher shelf life. It was either Aluminum Foil or Metalized films which were able to provide barrier solutions however AIOx films are revolution for replacing them even with requirement of transparent pouches, see-through pouches or regular pouches. AIOx coated PET films are used in Variety of applications such as Food Packaging –Retort and Non-Retort Barrier Packaging Box Lamination, Medical & Pharma Packaging, Electronic Goods packaging etc.

### Non Printable AIOx (See through) Films

Available from 12 to 36 Micron  
Special Metalized Film  
Application – High Barrier Pouches  
(Non Printable) for higher shelf life

### Printable AIOx Films

Available in 12 to 36 Micron  
Special Coating on AIOx Metalized film  
Application – High Barrier Transparent  
Pouches with higher shelf life
