MODIFIER

“POLYCOM-101”

For Double Wall HDPE Corrugated Pipe Industry

MODIFIER PROCESSING AID BONDING AGENT

Key Advantages in Double wall HDPE Corrugated Pipe:-

- Improves dispersion sharply and makes internal and external surface smooth & Glossy.
- Increases dosage of recycle material by 25%-50%
- Smoothens the manufacturing process.
- Removes white marks, spots and roughness.
- Increases Tensile strength, Dart strength, Break strength and elongation.
- Thickness variation can be controlled.

Dosage: (POLYCOM-101)

0.5% to 1.5 % of POLYCOM is to be added keeping the usual formulation unchanged.

POLYCOM-101 can be used in Double walled HDPE corrugated Pipes as well as Single wall PP/HDPE corrugated Pipes.

*Above properties may vary plant to plant, processing skills and raw material used by the manufacturer.

POLYCOM-101 gives opportunity
to save cost

\$50 - \$100 / MT*
