

Sinoeuro Machinery

ONE-STOP COMPLETE WOOD PROCESSING SOLUTIONS

AUTOMATIC OF HYDRULIC HOT PRESS PERS PANAS HIDROLIK OTOMATIS

15-65 LAYERS HYDRULIC HOT PRESS AUTOMATIC LINE

To reduce the consumption & enhance efficiency of plywood manufacturing

Low-energy, High Efficient, Stable

- High efficiency and high output with 25-65 layers
- Hot press can share 1 hydraulic oil circuit system
- Equipped with intelligent temperature control system to eliminate bubble plate and carbonation.
- Nitrogen accumulation, fast closing Speed
- keep the pressure balanced and stable, eliminate board thickness vibration
- Can be customized according to customer request
