

Lid Dry Offset Printing Machine --LM608T

Machine Features

Plate changeover quickly
Gas pretreatment
Detection and ejection function
Full automation option

No lid no print
Colorhead cooling system
High consistent accurate positioning system
Production speed up to 600 lids per minute

Area of application

Plastic cover dry offset printing machine can realize the printing application of round, square, circular and oval plastic covers

Machine Specifications

Max production speed	600 ppm
Lid height	22 mm
Max lid diameter	326 mm
Max printing diameter	250 mm
Colorhead	8 sets
Net weight (kg)	4000 kg
Machine size (L*W*H)	8000 mm * 3000 mm * 2500 mm
Power supply	3 x 380-480V, 50-60 Hz + earth, Nominal load ≈ 25 kVA
Compressed air	6-10 bar, 50m ³ /hr, connection 1"
