

# Compressor Nebulizer

NIMO® Compressor Nebulizer is designed for use in the treatment of asthma, allergies and other respiratory ailments. NIMO® Compressor Nebulizer transforms the liquid medicine in the medicine container into aerosol vapor, making it easily inhalable thanks to the compressor motor that converts electrical energy into mechanical energy. NIMO® Compressor Nebulizer can give the medicine to the patient quickly and in the most appropriate way for the required treatment, without disturbing the patient. This device is suitable for use by patients of all ages. Thanks to its easy use and ergonomic structure, you can easily use it at home or at work.

Air Outlet Range  
4-6 L/dk

MMAD  
3-3.5 µm

Maximum Working  
Pressure  
2.5 BAR

Nebulization Rate  
0.2-0.4 ml/dk

Sound Level  
<60 dB

## Medicine Container With Adjustable Steam Outlet

You can move the nebulization control valve located on the medication cup cover in the “+” or “-” direction. The amount of steam output is now under your control.
