

## *Eco-Friendly, Excellent color fastness, Solution dyed Polyester Yarns*

### Features

- **Eco Friendly**

Environmental friendly dyeing which has no water consumption and no industrial water waste with toxic chemical for dyeing.

- **Excellent Color Fastness**

Solution dyed KFS-Colorido yarns are colorfast, resistant to multiple washings and great for achieving bright colors.

- **Color Uniformity**

Color uniformity is higher than traditional piece dyed for all applications. Solution dyed yarns are fully uniform in color and typically do not vary from lot to lot.

- **High UV Resistant**

Dope Dyed yarn is highly resistant to UV fade and shade changes.

---

KFS-Colorido yarns solution dyed yarns in semi dull, bright and full dull. Solution dyed yarn is an energy saving & environmental friendly coloring method. Colorido yarns are created by adding masterbatch colorant to the polymer melt in spinning for coloring, it substituted the most polluting process of kettle dyeing.

### Specification

30Dn-1200Dn Textured DTY Semi dull and Bright yarns dope dyed

30Dn-300Dn FDY Semi dull and Bright Yarn dope dyed

30Dn-300Dn HOY Semi dull and Bright Yarn dope dyed

240/12 Semi dull mother yarns dope dyed
