Biogreen™ BIODEGRADABLE NITRILE GLOVES

Powder Free

The best solution for protecting hands and the environment

Top Glove's wide range of quality products are made with protection in mind, not only for the end user but also for the environment.

Introducing Top Glove's Biogreen™ Biodegradable Nitrile Examination Gloves, which are specially designed to biodegrade in anaerobic conditions in landfills. The biodegradability of these gloves has been measured using the internationally-recognized ASTM D5511 Standard Test, in which our Biogreen™ Biodegradable Nitrile Gloves (Powder-Free) biodegrades at least 10 times faster compared to conventional nitrile examination gloves. Our gloves also meet and surpass stringent international standards as well as requirements, offering a wide range of sizes, features, and quality materials, to cater to every customer's need.

Quality Standards

- Conforms to ASTM D6319-10 and EN455 Standards
- Manufactured under QSR (GMP) ISO 9001:2015 and ISO 13485:2016 Quality Management System

Product Specifications

Type	: Nitrile Latex Examination Glove, Powder-Free, Online Single Chlorinated, Non-sterile
Material	: 100% Synthetic Nitrile Butadiene Quality Latex
Design & Features	: Ambidextrous, finger textured, beaded cuff, proven biodegradable with ASTM D5511 testing
Storage	: Store in cool and dry places
Shelf-life	: 5 years (accelerated aging)

Functional Benefits

- Able to biodegrade in anaerobic environments
- Specially designed to biodegrade in landfills through a microbial process
- Provides "end life solution" to reduce accumulation of waste in landfills and in terms of recyclables
- Free from latex protein, eliminating Type I immediate hypersensitivity reaction
- Designed with accelerator free formulation to minimise risk of Type IV Delayed Hypersensitivity reaction

Our Biogreen™ Biodegradable Nitrile Gloves are proven to biodegrade at least 10 times faster compared with conventional nitrile examination gloves, based on the internationally-recognized ASTM D5511 Standard Test.

A product that is designed to be eco-friendly without compromising on protection to the user.

Internal surface finishing for fast and easy donning

Online single chlorinated inner surface which provides smooth donning

Finger textured

For better grip

Proven biodegradability based on ASTM D5511 Standard Test

Proven to biodegrade at least 10 times faster than conventional nitrile examination gloves

Designed using accelerator-free formulation

- Uses patented accelerator-free formulation
- Minimizes risk of Type IV hypersensitivity reaction
