Since 1993...

ABOUT US

Hakerman AS was founded in 19 July 1993 in Ankara. Since its foundation, we have tried to bring a different understanding of service with various products in healthcare field and we are still trying to stay on the same course. In this point we have reached after 30 years, we are active in fields of sterilization/disinfection products, rehabilitation products, medical waste disposal and elimination products and hospital furniture products.

To our bliss, we decided to continue our knowledge since we have obtained in years in production as a trademark of Turkey and since 2015, we have been producing products which are in our field related to our interests and activities.

During this course, we would like to thank over 20,000 end-users, over 1000 hospitals and over 250 partners in business who trusted us, both used our products and we have provided service and maintenance. Also we would like to sincerely thank many hospitals and firms on different spots around the globe who purchased our products for justifying the tagline on our products "Proudly Türk".

HAKKIMIZDA

Hakerman A.Ş.'yi 19.07.1993 tarihinde Ankara'da kurduk. Kurulduğumuz günden beri sağlık alanında farklı ürünler ve farklı bir hizmet anlayışını getirmeyi amaçladık ve halen aynı yolda yürümeye çalışıyoruz. 30 yıl sonra geldiğimiz bu noktada sterilizasyon/dezenfeksiyon ürünleri, rehabilitasyon ürünleri, tıbbi atık imha ve bertaraf ürünleri ile hastane mobilyaları konusunda faaliyet göstermekteyiz.

Ne mutlu bize ki yıllarca edindiğimiz bilgi birikimimizi Türkiye'nin bir markası olarak üretimde de sürdürmeye karar verdik ve 2015 yılından beri ilgi ve faaliyet alanlarımızın içinde yer alan ürünlerin üretimini de yapmaktayız.

Bu süreçte bize güvenen ve hem ürünlerimizi alan hem servis, bakım verdiğimiz 20,000 den fazla son kullanıcı, 1000 den fazla hastane, 250 den fazla paydaş ve çalışma ortaklarımızın hepsine teşekkür ederiz. Ayrıca üretimlerimize ilgi gösterip bizden alışveriş yapan Dünyanın farklı coğrafi yerlerindeki hastane ve firmalara da ürünlerimiz üzerinde bulunan "Proudly Türk" sloganımızı haklı çıkarttıkları için sonsuz teşekkürler.

Pre washing sink unit free standing HKM PSL 20

- › 1/2/3 sinks according to the customers needs from AISI 304 stainless metarial
- › Options: drawers, sliding door for lower shelf,
- › Back flash for liquid splash
- › Polished surface
- › Different types of water taps like rinsing shower, standart etc.
- › Sink drainage control mechanism option
- › Flexible production for dimensions and accesories according to the customer needs

Pre washing sink unit free standing HKM PSL 21

- › 1/2/3 sinks according to the customers needs from AISI 304 stainless metarial
- › Options: drawers, sliding door for lower shelf
- › Back flash for liquid splash
- › Polished surface
- › Different types of water taps like rinsing shower, standart etc.
- › Sink drainage control mechanism option
- › Integrated ultrasonic bath, air/Water spray gun options
- › Flexible production for dimensions and accesories according to the customer needs

Working Table HKM PSL 25

- › AISI 304 stainless steel Construction
- › Stainless steel adjustable feet
- › Drawers and cabinet
- › Flexible production in different designs and dimensions

Sorting and Packing Table HKM PSL 02

- › Sorting and packing table with fixed wheels
- › AISI 304 stainless steel polished surface
- › Flexible production in different designs and dimensions

Mobile Trolley HKM PSL 05

- › Mobile trolley made of AISI 304 stainless steel

Hermetic closed trolley for sterile products

HKM PSL 30

- › AISI 304 polished robust Construction
- › 2 doors with 270 derece iřareti openings
- › Door gasget
- › 4 heavy duty wheels, 2 with brake
- › 3 height adjustable inner shelves

Adjustable Shelf

HKM PSL 31

- › AISI 304 or Cr-Ni surface finish
- › With wheels or free standing design
- › Adjustable shelf height

Surgical Scrub Mono

HKM PSL 27

- › AISI 304 polished stainless steel
- › Knee and photocell operated water and soap
- › Thermostatic Mixer for stayable water temperature
- › Optional thermostatic valve and digital Water flow timer
- › Stainless steel adjustable feet 20 mm

Surgical Scrub Triple HKM PSL 26

- › AISI 304 polished stainless steel
- › Knee and photocell operated water and soap
- › Thermostatic Mixer for stayable water temperature
- › Optional thermostatic valve and digital Water flow timer
- › Stainless steel adjustable feet 20 mm

Instrument Cabinet HKM PSL 23

- › 304 polished Stainless Steel
- › Stainless steel adjustable feet
- › Lockable doors
- › Flexible production in different designs and dimensions

Instrument and Drug Cupboard HKM PSL 24

- › 304 polished Stainless Steel
- › Stainless steel adjustable feet
- › Lockable glass doors and 3 shelves

Operating Theater Cupboard HKM PSL 28

- › 304 polished Stainless Steel
- › Stainless steel adjustable feet
- › Lockable glass doors and 3 shelves
- › Drawers

Surgical Mayo Table HKM PSL 01

- › AISI 304 polished stainless steel
- › 3 or 4 wheel design with 3 breaks
- › Hydraulic height adjustment by foot pedal
- › Removable and turnable top tray
- › Flexible production in different designs and dimensions

Surgical C Shape Table HKM PSL 22

- › AISI 304 polished stainless steel
- › 4 wheels (2 with the brake)
- › Flexible production in different designs and dimensions

Pass Back Doors for Washers & Sterilizers

- › AISI 304 Stainless steel construction
- › Automatic or manual vertical sliding doors
- › Opening downwards
- › Electrical interlock / status visualized by LEDs (optional)
- › Manual operated door to access compartment for detergents
- › Electrical connection: 230 VAC / 50Hz (optional)

Hallow Instrument Cleaner

Hakerman ultrasonic cleaner provides efficient, powerful pre-sterilisation cleaning of the internal and external surfaces of cannulated instruments used in operating theatre procedures. Combining high performance transducers and a 32 litre robust stainless steel tank with internal pump and irrigation system, the Hkm_Hygea ensures thorough cleaning of both internal and external surface areas of cannulated instruments. Every cycle can be recorded either in hard copy via the integral printer and/or electronically through the memory card port with Ultrawave's datalogger software. Process monitor prevents removal of instruments prior to the completion of the cleaning cycle, ensuring consistent cleaning results whilst improving the safety of operator(s).

Laundry collection trolleys with hinged lid

- › Structure in stainless steel tubular Ø 20 mm
- › Bag-holder in Nylon, with a fixing-bag ring in stainless steel
- › Hinge in plastic, incorporated on the bag-holder,
