

EN This machine provides solution from roll to roll. Product output can be used as roll heavy duty bags. For example it can be used by mattress with high efficiency. Cold Slitting feature is given as optional. Thanks to pre-heating and keep warming functions sealing quality is guaranteed in the first and end of bag.

TR Rulo ağır hizmet torba çıktısı üreten rulodan ruloya çözüm sunan bir makinedir. Örneğin yatak üreticileri verimlilik ile kullanabilir. Soğuk bıçak opsiyon olarak sunulmaktadır. Ön ısıtma ve sıcak tutma algoritmaları sayesinde kaynak kalitesi ilk ve son torbada aynı kalite de sunulmaktadır.
