

EN It is a Bag-on-Roll machine that open (unfolding) bag from double to single layer. If you need over size single layer bag and width of your extruder machine is not enough, no need make too much investmest for new extruder. This machine convert your bag x2 size.

TR Boru şeklinde olan naylonu açarak tek kat rulo sarım yapan makinadır. Tek kat geniş mallarda yüksek bütçe gerektiren yeni bir bodinoz makinası yatırımının önüne geçer. Sırt ve kenar problemleri minimize edilmiştir.
