

**REVOLUTIONARY**  
New Generation  
**MODIFIER**

## “POLYCOM-101” For Blown Film Industry

# MODIFIER PROCESSING AID BONDING AGENT

Key Advantages in Blown Film:-

- Increases Tensile, Dart strength, Peak load and elongation.
- In recycle increase dispersion, tensile, Dart strength and elongation drastically.
- Helps to reduce microns of the film, maintaining tensile and elongation.
- Excellent dispersion and shinning
- Improved surface finish.
- Increases calcium carbonate/ recycle to higher level.
- Thickness variation of film is controlled.
- Increases sealing properties
- Enhances life of screw & barrel.
- Eliminates slippage.
- Reduces powder formations on the surface.
- Increases output of plant.

### DOSAGES

0.5% to 1.5% of POLYCOM is to be added keeping the usual formulation unchanged.

POLYCOM-101 can be used in Mono Layer & Multi-Layer Films Extruder.

\*Above dosages can be increased or decreased as per the plant parameters, raw material and manufacturing skills.

**POLYCOM-101** gives opportunity  
to save cost

**\$50 - \$100 / MT\***

**Omega** Plasto  
LIMITED

AN ISO 9001:2015 CERTIFIED COMPANY

201-203, Siddharth Annex Complex,  
Near M.S. Hostel, Sama-Savli Road,  
Vadodara- 390 008. Gujarat. India.  
Phone: 0265-2710943
