

REVOLUTIONARY
New Generation
MODIFIER

“POLYCOM-101”

For Injection and Blow Moulding Industry

MODIFIER PROCESSING AID BONDING AGENT

KEY ADVANTAGES:-

- Improves dispersion sharply and makes surface smooth & Glossy.
- Increases dosage of recycle material
- Smoothen's the manufacturing process.
- Increases Tensile strength, Dart strength, Break strength and elongation.
- Improves Drop test Properties.
- Thickness variation can be controlled.
- Smoothen's the manufacturing process.

POLYCOM-101
gives opportunity
to save cost

DOSAGES (POLYCOM 101)

0.5% to 1% of POLYCOM is to be added keeping the usual formulation unchanged.

*Above properties may vary plant to plant, processing skills and raw material used by the manufacturer.

AN ISO 9001:2015 CERTIFIED COMPANY

201-203, Siddharth Annex Complex,
Near M.S. Hostel, Sama-Savi Road,
