Model Ambalaj A.Ş. began its activities with the aim of producing “kraft bag with handle,” “kraft bag without handle”, “die cut bags kraft”, “e-commerce bag”, “paper cutlery set”, “paper straw”, “american service” and “wrapping paper” in 2020 with the purpose of sustainability, respect for nature and to leave a better world for future generations.

Our products are in great demand in the packaging of fast food products, in transportation of textile products, in general retail and in e-commerce in-package product presentations: our production capacity increased to 20 million units monthly and 240 million units annually in the production area of 16,000 m² in a very short time to meet the increasing domestic and international demands

Our company equipped with machinery units capable of producing at wide measurement ranges to meet all expectations of our customers has taken its place among the reputable companies in the industry with its high export capacity for countries such as Europe, America, Canada.

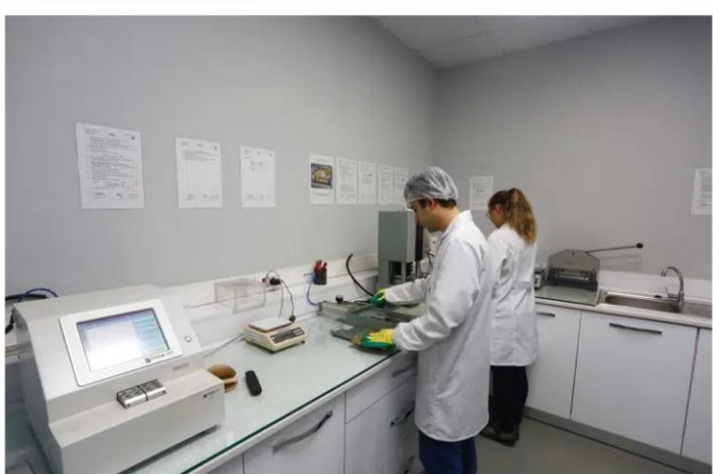

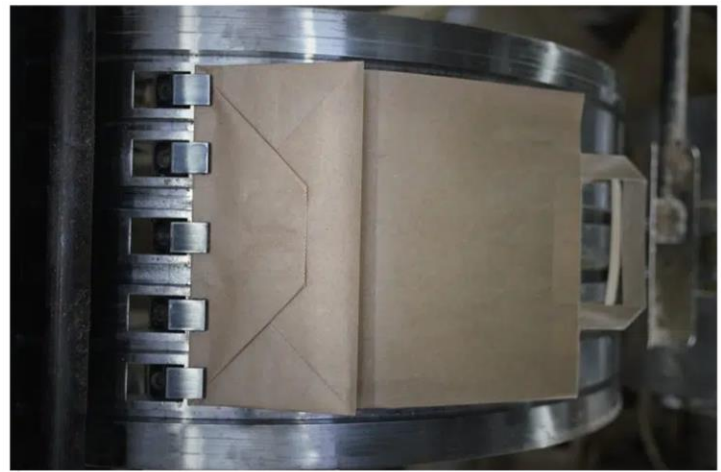

In accordance with the principles of quality and sustainability, we continue our activities in a respectful manner to nature and people with the ISO9001:2015, ISO14001:2015, ISO450010:2018, FSC V3.1 and BRCGS PM V6 quality certificates that we have.

VISION

Our biggest goal is to become a leading and well-known brand respecting for people, respecting for nature and sustainability without compromising the principles of honesty, creating employment opportunities for hardworking and educated people more; devoted to customer satisfaction as a principle, constantly increasing the export capacity of the packaging industry.

MISSION

To produce paper pouch and bags with the shortest recycling time in nature with a trained workforce, technological infrastructure and high production capacity without compromising the principles of sustainability.
