

STORAGE SILOS

STORAGE SILOS FOR EPS & EPP Features and Advantages

SILO BAGS

- Antistatic Polyester Material (Made in Germany)
- Custom made silo bags
- Silo-bag sewn of synthetic permeable to gas fabric, color similar to white in antistatic design (Electrostatic discharges are via woven carbon threads-not steel threads!)
- Silo top-cover with large filter cloth sections for optimal dust free venting
- Silo-inlet suitable for feeding pipes 200-250 mm i.d. (or as per requirement)
- Silo-outlet suitable for Akkaya- Silo-outlets for block or shape moulding production (or as per requirement)
- Two (2) inlets on side for level control sensors (min/max level)
- Zipper in the cone part for complete silo-cleanout

SILO FRAMES

- Corrosion protected 1 layer primer painted
- Custom Made Silo Frames
- Produced by round pipe or rectangular profile which is calculated and designed according to the silo volume. It is protected by anti-rust
