*With High Thermal Insulation*

**PROVIDES SUPPORT TO YOUR BUDGET**

TECHNICAL NOTIFIED QUALITY

# VISTA SERI

## Highlights

1

### Base suitable for 8 mm - 10 mm glass

The Vista series allows the use of glasses of different thicknesses with bases in desired dimensions. Thus, it becomes possible to offer alternative suggestions.

### Possibility to use with non-threshold frame

In glass balconies, it provides you convenience with its use of a safe box developed for your pleasure and comfort.

2

3

### Auto closing guide

While closing the windows, the guide closes automatically with the last move. This makes it easier to use curtains.

### Side mast EPDM wick

It provides maximum heat retention with EPDM wick. It does not leak heat and rain.

4

### 3 different locking mechanism options

With 3 different specially designed locks, you can choose different lock options for your glass balcony.

5

### Aluminum wick application

You can choose aluminum wick application according to your preference, aiming for a longer lifespan of use.
