

4 Feet Veneer Peeling Machine

Advantages:

- <1> The whole peeling machine is heavy and powerful, strong to peel kinds of hardwood, and keep stable;
- <2> Advanced and mature structure make sure peeling machine works very well and keep high accuracy of veneer thickness;
- <3> With hydraulic knife holder and knife bed, which can automatically open and close when change knife, more conveniently and high efficiency;
- <4> With Crane to help workers to easy change knife)

Technical Parameters

<p>4feet Spindleless Peeling Machine</p> <p>Max wood length:1400mm</p> <p>Max opening:500mm</p> <p>Thickness:0.5-4.0mm</p> <p>Speed:30-100m/min(Adjustable)</p> <p>Single roller motor:7.5kw *2pcs</p> <p>Double roller motor:7.5kw *2pcs</p> <p>Infeeding motor:11kw (Servo motor)</p> <p>Clipper motor:4kw (Servo motor)</p> <p>Rubber roller motor:2.2kw</p> <p>Total motor: 47.2kw</p> <p>Knock left core way:Pneumatic power</p> <p>Mainly reducer:87'</p> <p>Peeling knife size:1500*180*16mm</p> <p>Clipper size:1500*90*12.7mm</p> <p>Knife change way:Manually</p> <p>Weight:8000kgs</p> <p>Size:4500*2300*1500mm</p>	<p>4feet Hydraulic Spindleless Peeling Machine</p> <p>Max wood length:1400mm</p> <p>Max opening:500mm</p> <p>Thickness:0.5-4.0mm</p> <p>Speed:30-100m/min(Adjustable)</p> <p>Single roller motor:7.5kw *2pcs</p> <p>Double roller motor:7.5kw *2pcs</p> <p>Infeeding motor:11kw (Servo motor)</p> <p>Clipper motor:4kw (Servo motor)</p> <p>Hydraulic power:3KW</p> <p>Rubber roller motor:2.2kw</p> <p>Total motor: 50.2kw</p> <p>Knock left core way:Pneumatic power</p> <p>Mainly reducer:87'</p> <p>Peeling knife size:1500*180*16mm</p> <p>Clipper size:1500*90*12.7mm</p> <p>Knife change way:Hydraulic open and close</p> <p>Weight:9000kgs</p> <p>Size:4500*2300*1500mm</p> <p>Note: This type machine is better With knife bed, thus no need adjust knife gap and knife height after changed knife.</p>

8 Feet Veneer Peeling Machine

Advantages:

- <1> The whole peeling machine is heavy and powerful, strong to peel kinds of hardwood, and keep stable;
- <2> Advanced and mature structure make sure peeling machine works very well and keep high accuracy of veneer thickness;
- <3> With hydraulic knife holder and knife bed, which can automatically open and close when change knife, more conveniently and high efficiency;
- <4> With Crane to help workers to easy change knife)

Technical Parameters

<p>8feet Spindleless Peeling Machine</p> <p>Max wood length:2600mm</p> <p>Max opening:640mm</p> <p>Thickness:0.5-3.5mm</p> <p>Speed:30-100m/min(Adjustable)</p> <p>Single roller motor:11kw *2pcs</p> <p>Double roller motor:11kw *2pcs</p> <p>Infeeding motor:11kw</p> <p>(Servo motor)</p> <p>Clipper motor:4kw</p> <p>(Servo motor)</p> <p>Rubber roller motor:2.2kw</p> <p>Total motor: 61.2kw</p> <p>Knock left core way:Pneumatic power</p> <p>Mainly reducer:97'</p> <p>Peeling knife size:2700*180*16mm</p> <p>Clipper size:2700*90*12.7mm</p> <p>Knife change way:Manually</p> <p>Weight:11000kgs</p> <p>Size:6500*2300*1600mm</p>	<p>8feet Hydraulic Spindleless Peeling Machine with crane</p> <p>Max wood length:2600mm</p> <p>Max opening:640mm</p> <p>Thickness:0.5-3.5mm(Thickness adjustable through screen automatically)</p> <p>Speed:30-100m/min(Adjustable)</p> <p>Single roller motor:15kw *2pcs</p> <p>Double roller motor:15kw *2pcs</p> <p>Infeeding motor:15kw</p> <p>(Servo motor)</p> <p>Clipper motor:4kw</p> <p>(Servo motor)</p> <p>Hydraulic power:4.4KW</p> <p>Thickness adjust motor:4kw</p> <p>Rubber roller motor:2.2kw</p> <p>Total motor: 89.6kw</p> <p>Knock left core way:Pneumatic power</p> <p>Mainly reducer:97'</p> <p>Peeling knife size: 2700*180*16mm</p> <p>Clipper size:2700*90*12.7mm</p> <p>Knife change way:Hydraulic open and close</p> <p>Weight:135000kgs</p> <p>Size:7200*2300*1700mm</p> <p>Note: This type machine is better With knife bed, thus no need adjust knife gap and knife height after changed knife.</p>

Wood Debarker

Advantages:

- <1> Machine with good and thick materials, so the whole machine is strong to debarking kinds of hardwood;
- <2> With good and upgraded electric box and Schneider electric parts, ensure machine works very well;
- <3> Easy operate with function button and handle shank)

Technical Parameters

<p>4Feet Wood Debarker</p> <p>Model: MH-WD4A</p> <p>Max wood length: 1400mm</p> <p>Max opening: 550mm</p> <p>Speed: 70m/min</p> <p>Single roller motor: 11kw</p> <p>Double roller motor: 11kw</p> <p>Hydraulic station power: 5.5kw</p> <p>Total power: 27.5kw</p> <p>Roller type:</p> <p>Chromed-wear-resistance</p> <p>Peeling knife size:</p> <p>1500*180*16mm</p> <p>Weight: 4000</p> <p>Size: 3800*2300*1500mm</p> <p>Note: There is another choice to add the wood crusher</p>	<p>8Feet Wood Debarker</p> <p>Model: MH-WD8A</p> <p>Max wood length: 2600mm</p> <p>Max opening: 800mm</p> <p>Speed: 70m/min</p> <p>Single roller motor: 15kw*2pcs</p> <p>Double roller motor: 15kw*2pcs</p> <p>Hydraulic station power: 7.5kw</p> <p>Support roller: 2.2kw</p> <p>Total power: 69.7kw</p> <p>Roller type:</p> <p>Chromed-wear-resistance</p> <p>Peeling knife size:</p> <p>2700*180*16mm</p> <p>Weight: 9000</p> <p>Size: 5500*2300*1600</p> <p>Note: There is another choice to add the wood crusher</p> <p>Note: This type machine is better With knife bed, thus no need adjust knife gap and knife height after changed knife.</p>
