aluplast® - Specialist for window and door systems

aluplast GmbH is one of the leading system providers of PVC windows, main entrance doors, roller shutters and controlled domestic ventilation systems. The family-owned company headquartered in Karlsruhe was founded in 1982 by Manfred J. Seitz. Today, aluplast has 10 production sites worldwide and customers in more than 80 countries. With its wide product portfolio, the company offers almost any possible window construction and variation. Its success is based above all on the company's market proximity that always results in pioneering innovations.

Even though windows comprise only 8 % of the entire building envelope they cause almost 40 % of the building's heat loss. It is therefore all the more important to choose the right window system according to your personal requirements. aluplast offers a wide range of uPVC window systems that are all compatible with each other and meet the individual requirements of different regions and markets.
