Pull the knob up and release the brace quickly

**MFF14002**  
**Reel System Ankle Support**  
- Reel system for effortless & quick adjustment  
- Reel system provides slightly compressive function  
- Straps & panels for good immobilization & support  
- Suitable for left & right feet  
SIZE: S, M, L, XL

**MFF09004**  
**Reel System Wrist / Palm Support**  
- Reel system for effortless & quick adjustment  
- Reel system provides slightly compressive function  
- Aluminum stay for palm support  
- Suitable for both left & right hands  
SIZE: S, M, L, XL

**MFF07002**  
**Reel System Lumbar Support**  
- Reel system for effortless & quick adjustment  
- Breathable materials are applied  
- Two reel system, one clockwise and the other to counter-clockwise  
SIZE: S, M, L, XL

**MNP15018**  
**Reel System Hallux Valgus Splint**  
- Reel system for effortless & quick adjustment of bunion  
- Reel system provides slightly compressive function  
- Ergonomically designed split provides comfortable support and easy movement of walking  
- Comfortable & breathable padding provides a comfortable fit  
- Suitable for left & right feet  
SIZE: Universal

## INFLATABLE SYSTEM

The air pouch fills gaps and enhances the stability of protective braces. This approach ensures a snug and reliable fit, improving both comfort and function of braces.

**SoftGuards**

Patent Pending

**DEFLATE**

Press the metal button to deflate the protective brace.

**INFLATE**

Press the pump to inflate the protective brace.

**MAE12003**  
**Inflatable Knee Support**

- Breathable material for comfort  
- The formed collar with tracheostomy opening for ventilation & rehabilitation  
- Ergonomic air pouch around knee joint increases immobilization and comfort while reducing swelling  
- Small and soft inflation pump allows to adjust the level of air pouch easily  
- 4 spiral stays for lateral & medial support  
- Velcro design for easy application  
SIZE: S, M, L, XL

**MAE1002**  
**Inflatable Immobilizer Support Collar**

- Breathable material for comfort  
- 12 gears height adjustable mechanism for maximum support of upper cervical  
- Two-piece polyethylene soft foam lining for easy application & comfort  
- Ergonomic air pouch around chest increases comfort and reduce pressure  
- Small and discrete inflation pump allows to adjust the level of air pouch easily  
SIZE: Universal

SoftGuards guard your health and mobility with our innovation and professionalism, like doctors along with you.

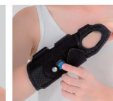

**MAE07008**  
**Inflatable 9" Pulley System Lumbar Support**

- 2 plastic panels provide complete support for back  
- Abdominal panel for additional support  
- Pulley system for easy application & adjustment  
- Breathable mesh material  
- Additional back panel with air pouch increases immobilization and comfort low back  
- Small and soft inflation pump allows to adjust the level of air pouch easily  
SIZE: S, M, L, XL

**MAE09003**  
**Inflatable Wrist / Palm Support**

- Breathable material for comfort  
- Aluminum brace insert keeps wrist in correct position  
- Ergonomic air pouch cover thumb increases immobilization and comfort while reducing swelling  
- Small and soft inflation pump allows to adjust the level of air pouch easily  
- Available for left and right hand  
SIZE: Universal

**MAE09002**  
**Inflatable Wrist / Palm Support**

- Breathable material for comfort  
- Aluminum stay on the palmar side for reinforcement and stability  
- Air pouches on the sides of carpal increases immobilization and comfort while reducing swelling better than plastic stays  
- Small and soft inflation pump allows to adjust the level of air pouch easily  
- Velcro design for easy application  
- Suitable for left & right hand  
SIZE: S, M, L, XL

**MAE14003**  
**Inflatable Ankle Support**

- Breathable material for comfort  
- 2 aluminum stays for both sides  
- Ergonomic air pouch around ankle joint stabilizes ankle while reducing swelling  
- Small and soft inflation pump allows to adjust the level of air pouch easily  
- Velcro design for easy application  
- Suitable for left & right feet  
SIZE: S, M, L, XL

## NEW DEVELOPMENTS

The newly developed products for more comfort and easy adjustment with unique and innovative designs.

**MPE01052**  
**Immobilizer Support Collar w/ Knob**

- Bases the back for easy adjustment of height  
- Ratchet design allows slight height adjustment  
- Safety-locked design to secure the height  
- Removable ends to fit the curve of the back neck, increasing wearing comfort  
- Fine tracheostomy with tracheostomy opening  
- More supportive & easier to use  
- Removable & replaceable back liner  
SIZE: Universal

**MPE07050**  
**Pulley System Lumbar Support w/ Flexible Back Panel**

- Flexible back panel fits different body shape & position  
- Fiberglass lattice structure provides strong stability and breathability  
- Pulley system for quick second-compression adjustment  
- Push lock with speed for ready adjusting length of rope  
- Breathable and quality material applied  
SIZE: S, M, L, XL

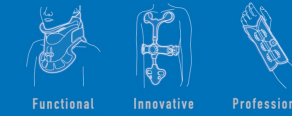

**MLV04005**  
**Hyperextension Brace**

- Lightweight plastic shell with ergonomic design  
- Adjustable aluminum support post with multi-direction  
- Buckles for easy fit, easy to put on and take off  
SIZE: S, M, L

**MNP09010**  
**Thumb / Wrist / Palm Support**

- Regular design, lightweight, breathable and beautiful  
- Ergonomic design conforms to hand curve  
- Slightly bendable aluminum stay along the thumb enhances support  
- Available for left and right hand  
- Breathable foam liner with quick-release buckle design for easy assembly  
SIZE: S, M, L, XL
