## Heel Up Foot Cushion

SSFF-001 - 385 x 130 x 35mm

Material: PU Foam + Fabric

A heel up foot cushion is a type of cushion designed to support and elevate the heel, providing relief to individuals who experience pain, discomfort or pressure on the heels. These cushions are typically made of soft materials like foam, gel, or air-filled chambers and can be used in a variety of settings, such as hospitals, nursing homes, or in the home.

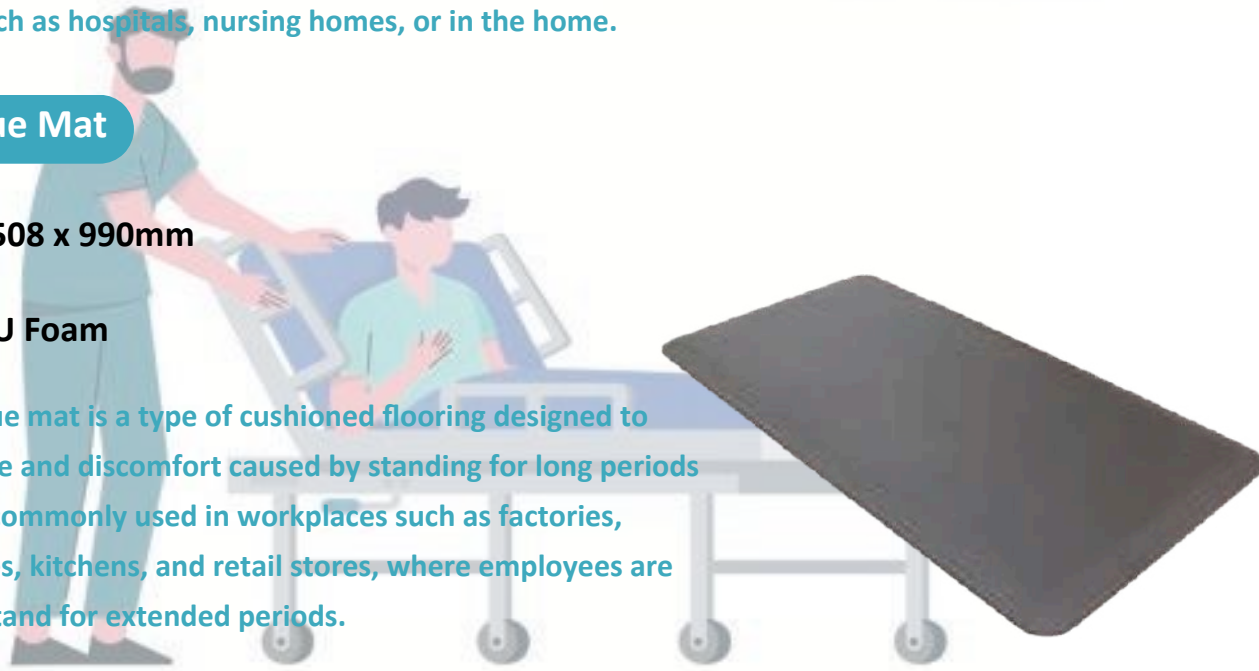

## Anti Fatigue Mat

SSPF-001 - 508 x 990mm

Material: PU Foam

An anti-fatigue mat is a type of cushioned flooring designed to reduce fatigue and discomfort caused by standing for long periods of time. It is commonly used in workplaces such as factories, assembly lines, kitchens, and retail stores, where employees are required to stand for extended periods.

## Office Anti Fatigue Mat

SSPF-002 - 440 x 520mm

Material: PU Foam

An anti-fatigue mat is a type of cushioned flooring designed to reduce fatigue and discomfort caused by standing for long periods of time. It is commonly used in workplaces such as factories, assembly lines, kitchens, and retail stores, where employees are required to stand for extended periods.

## Memory Foam Knee&Leg Pillow

SSFC-005 - 260 x 180 x 190mm

Material: High-Density Memory Foam + Velvet Cover

A memory foam knee and leg pillow is a type of pillow designed to provide support and cushioning to the knees and legs while sleeping. These pillows are typically made of memory foam, a material that molds to the shape of the body and provides customized support.

## Memory Foam Sleeping T shape Support Cushion

SSL-002 - 510 x 220 x 70mm

Material: High-Density Memory Foam + Mesh Cover

A memory foam sleeping T-shape support cushion is a type of pillow that is designed to provide support and comfort while sleeping. It is made of materials that are ergonomically designed to support the natural curve of the neck and provide maximum comfort.

## Support And Elevation Pillow

SSFC-003 - 800 x 330 x 240mm

Material: High-Density Memory Foam + Velvet Cover

A support and elevation pillow is a type of cushion designed to support and elevate a specific part of the body, such as the legs. These pillows can be made of material memory foam and can be used in a variety of settings.

## H-Shape Adjustable Lumbar Cushion

SS-BH-009 - 390x340x45mm

**Material: High-Density Memory Foam + Breathable Cotton Cover**

An H-Shape Adjustable Lumbar Cushion is a type of cushion that is designed to provide support to the lower back while sitting. It is adjustable to fit different body types and is made of materials that are ergonomically designed to support the natural curve of the spine.

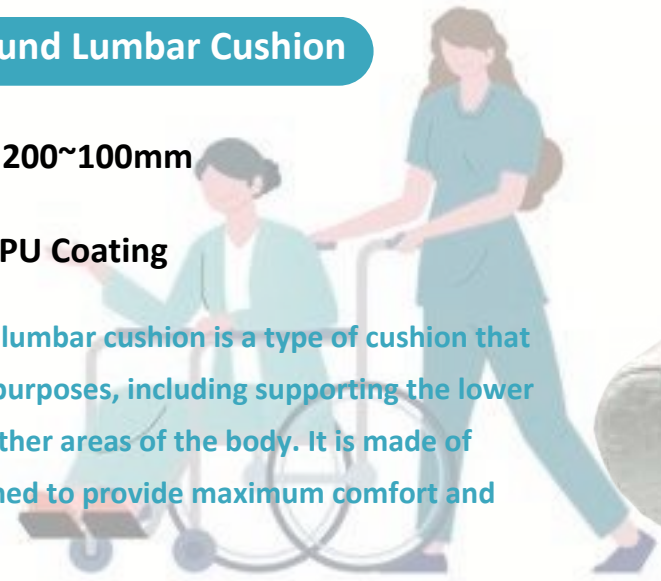

## Multifunctional Round Lumbar Cushion

SSL-009 - 500 x 400 x 200~100mm

**Material: PU Foam + PU Coating**

A multifunctional round lumbar cushion is a type of cushion that can be used for various purposes, including supporting the lower back, neck, knees, and other areas of the body. It is made of materials that are designed to provide maximum comfort and support.

## Office Curved Support Lumbar Cushion

SS-BEP-004 - 340 x 325 x 115mm

**Material: PU Foam + Breathable Knitted Mesh Cover**

An office curved support lumbar cushion is a type of cushion that is designed to provide support to the lower back while sitting in an office chair. It is made of materials that are ergonomically designed to support the natural curve of the spine and provide maximum comfort.

## Office Ergonomic Lumbar Cushion

SS-BHM-007 - 350 x 340 x 55mm

**Material: High-Density Memory Foam + Breathable Cotton Cover**

An office ergonomic lumbar cushion is a type of cushion that is designed to provide support to the lower back while sitting in an office chair. It is made of materials that are ergonomically designed to support the natural curve of the spine and provide maximum comfort.

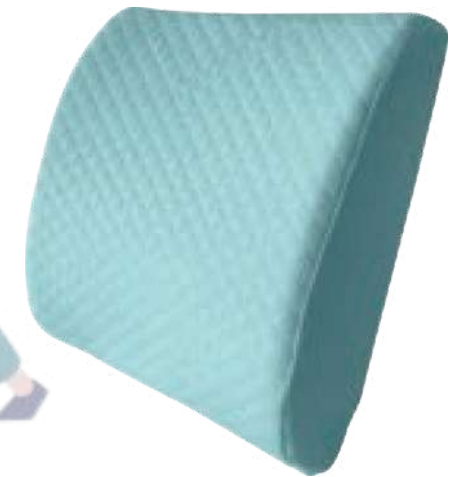

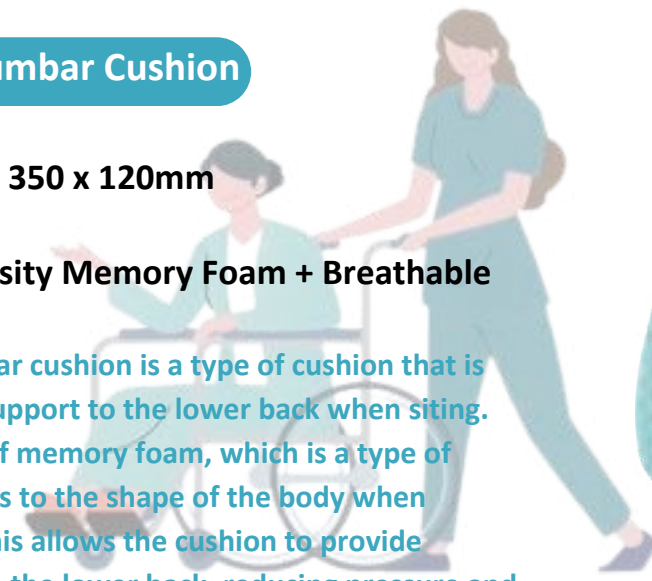

## Memory Foam Lumbar Cushion

SS-BSM-010 - 380 x 350 x 120mm

**Material: High-Density Memory Foam + Breathable Velvet Cover**

A memory foam lumbar cushion is a type of cushion that is designed to provide support to the lower back when sitting. The cushion is made of memory foam, which is a type of material that conforms to the shape of the body when pressure is applied. This allows the cushion to provide customized support to the lower back, reducing pressure and strain on the muscles and joints.

## Office Ergonomic Support Lumbar Cushion

SS-BEB-005 - 420 x 330 x 120mm

**Material: High-Density Memory Foam + Mesh Cover**

An office ergonomic support lumbar cushion is a type of cushion that is designed to provide support to the lower back while sitting in an office chair. It is made of materials that are ergonomically designed to support the natural curve of the spine and provide maximum comfort.

## Gourd-Shape GEL Adjustable Lumbar Cushion

SS-BHG-001 - 390 x 380 x 50mm

Material: PU Foam + GEL+ Lyrca Cover

A Gourd-Shape GEL Adjustable Lumbar Cushion is a type of cushion that is designed to provide support to the lower back while sitting. It is adjustable to fit different body types and is made of materials that are ergonomically designed to support the natural curve of the spine.

## Fit Waist Adjustable Lumbar Cushion

SS-BHM-002 480 x 385 x 120mm

Material: High-Density Memory Foam + Bird Eye Mesh Cover

A Fit Waist Adjustable Lumbar Cushion is a type of cushion that is designed to provide support to the lower back while sitting. It is adjustable to fit different waist sizes and is made of materials that are ergonomically designed to support the natural curve of the spine.

## Gel Toilet Seat Cushion

SSC-031 - 464 x 450 x 10mm

Material: TPU + Gel

A gel toilet seat cushion is a type of cushion designed to be placed on top of a toilet seat to provide added comfort and support while sitting. The cushion is typically made of a gel material that conforms to the user's body shape, providing a soft and comfortable seating surface.

## Office Semicircle Ergonomic Lumbar Cushion

SS-BRP-003 - 320 x 120 x 70mm

Material: PU Foam + Breathable Cotton Cover

An office semicircle ergonomic lumbar cushion is a type of cushion that is designed to provide support to the lower back while sitting in an office chair. It is shaped like a semicircle and is made of materials that are ergonomically designed to support the natural curve of the spine.

## Office Mesh Ergonomic Lumbar Cushion

SS-BMESH-008 - 430 x 400mm

Material: High Elastic Steel + Mesh

An office mesh ergonomic lumbar cushion is a type of cushion that is designed to provide support to the lower back while sitting in an office chair. It is made of materials that are ergonomically designed to support the natural curve of the spine and provide maximum airflow for comfort.

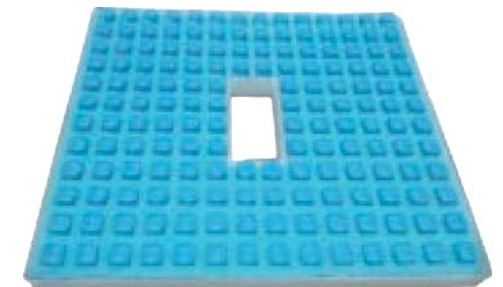

## Hollow Particle Gel Faom Seat Cushion

SSC-028 - 420 x 400 x 45mm

Material: GEL + Cotton Cover+PU Foam

A hollow particle gel cushion is a type of cushion designed to provide comfort and pressure relief to individuals who sit for extended periods. It features a unique design that combines hollow particles with gel to create a cushion that conforms to the user's body shape and provides cushioning and support.

## Gel Surgical Oval mattress

SSM-007 - 490 x 200 x 85mm

Material: TPU + Gel

The Gel Surgical Overlay mattress is a specialized soti overlay designed for surgical use, providing excellent pressure redistribution and comfort to help reduce patient discomfort during surgery.

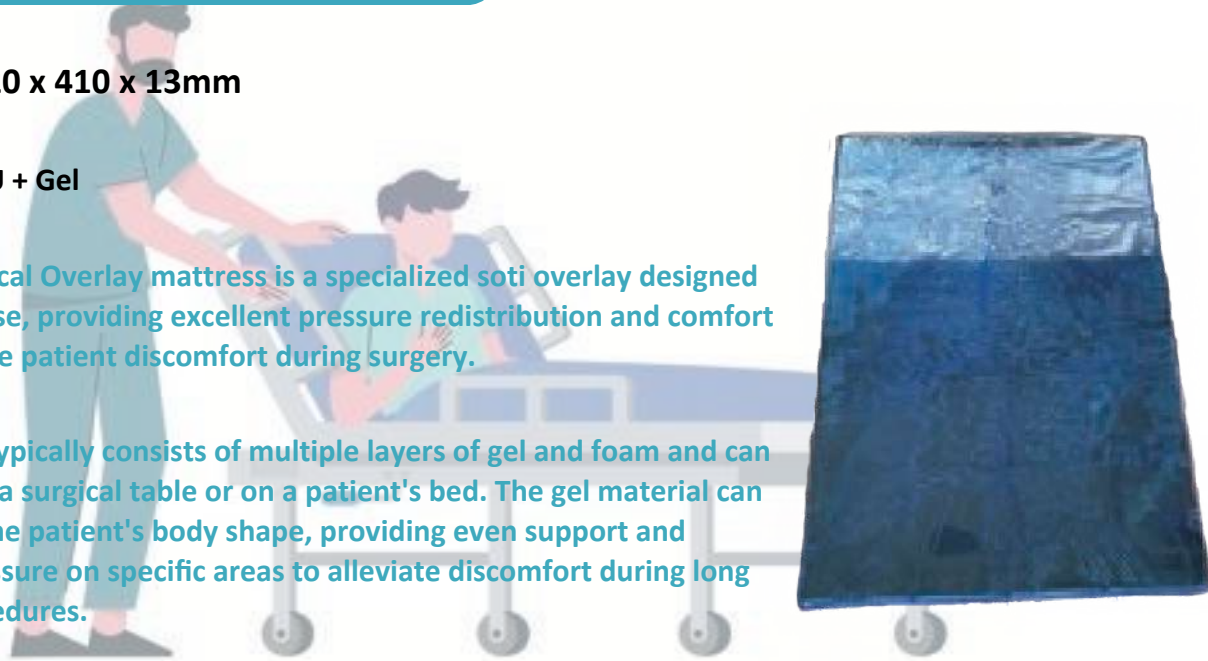

## Gel Surgical Overlay mattress With Bag

SSM-008 620 x 410 x 13mm

Material: TPU + Gel

The Gel Surgical Overlay mattress is a specialized soti overlay designed for surgical use, providing excellent pressure redistribution and comfort to help reduce patient discomfort during surgery.

The overlay typically consists of multiple layers of gel and foam and can be placed on a surgical table or on a patient's bed. The gel material can conform to the patient's body shape, providing even support and reducing pressure on specific areas to alleviate discomfort during long surgical procedures.

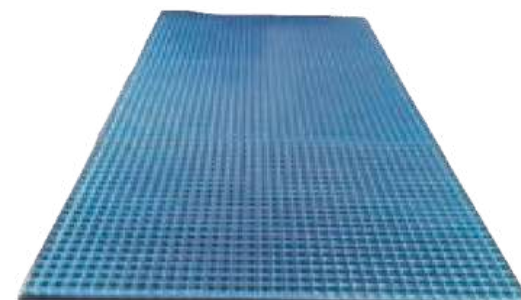

## Air Circulation Gel mattress

SSM-009 - 1080 x 910 x 15mm

Material: TPU + Gel

A gel mattress, also known as a gel-infused mattress, is a type of mattress that incorporates gel particles or gel foam into its construction. The purpose of adding gel is to provide enhanced comfort, support, and temperature regulation compared to traditional mattresses.

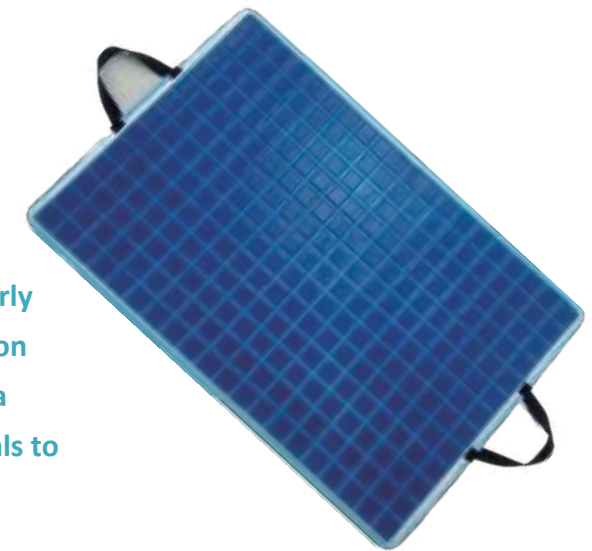

## Gel Pet Cooling mattress

SSM-011 - 900 x 570mm

Material: TPU + Gel

A gel pet cooling mattress is a specialized bedding product designed to help keep pets cool and comfortable, particularly during hot weather or in environments where heat retention can be an issue. These mattresses are typically made with a combination of gel-infused foam and other cooling materials to help regulate your pet's body temperature.

## Gel cooling mattress

SSM-010M - 600 x 900mm

SSM-010L - 600 x 1500mm

Material: Gel + Nylon

A gel cooling mattress, also known as a gel-infused mattress, is a type of mattress designed to provide better temperature regulation and a cooler sleeping surface. Traditional memory foam mattresses can retain heat, leading to discomfort for some individuals, especially during hot nights. Gel cooling mattresses incorporate gel beads or gel-infused foam to address this issue and create a more comfortable sleeping environment.

## Gel Surgical Overlay mattress

SSM-006 - 720 x 520 x 13mm

Material: TPU + Gel

The Gel Surgical Overlay mattress is a specialized soti overlay designed for surgical use, providing excellent pressure redistribution and comfort to help reduce patient discomfort during surgery.

## Medical Waterproof Hospital mattress

SSM-001 - 1060 x 910 x 120mm

**Material:** High density memory foam + PU foam + waterproof nylon cover

The memory foam hospital mattress offers a comfortable sleeping experience, reduces pressure points, prevents bed sores, and improves circulation. It has breathable properties, a durable medical-grade PU cover, and moisture-absorbing capabilities to prevent bacterial growth. Ideal for hospitals due to its resilience and durability.

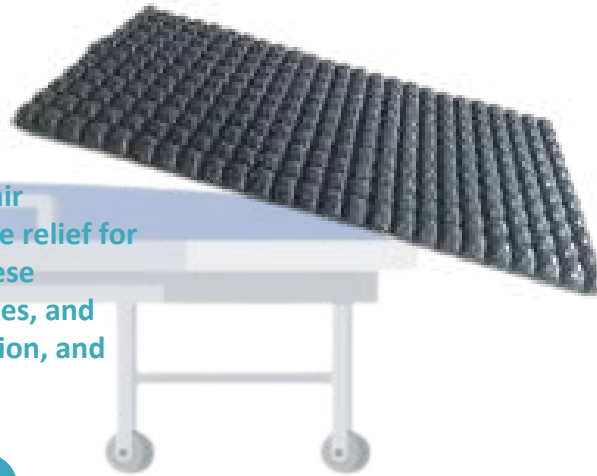

## Anti-Decubitus Inflatable Air mattress

SSM-002 - 2000 x 900 x 50mm

**Material:** TPU

A medical inflatable air mattress is a specialized type of air mattress that is designed to provide support and pressure relief for patients who are bedridden or have limited mobility. These mattresses are commonly used in hospitals, nursing homes, and home care settings to prevent bedsores, promote circulation, and improve patient comfort.

## Medical Eggcrate Memory Foam mattress

SSM-003 - 1060 x 910 x 120mm

**Material:** High density memory foam + Cotton cover

The hospital bed memory foam mattress is crafted to relieve pressure points on the body, enhancing sleep comfort. With its breathable, self-ventilating, and moisture-regulating properties, it creates a healthy and cozy sleeping space. Encased in a washable, waterproof PU cover, the mattress guarantees a dry and comfortable surface. Made from sturdy medical-grade materials, it offers excellent rebound resilience for prolonged durability.

## Elevation Wedge Topper mattress

SSM-004 - 1900 x 910 x 60mm

**Material:** High-density memory foam + Cotton cover

An Elevation Wedge Topper mattress is a specialized type of mattress topper that is designed to provide additional support and elevation to the upper body while sleeping. It is usually made of foam and has a wedge shape that can be placed under the head, neck, and upper back to help relieve snoring, acid reflux, and other sleep-related issues.

## Medical Fire Retardant mattress

SSM-005 - 2032 x 914 x 152mm

**Material:** PVC Fabric+PU Foam+FR Fibre Barrier

The medical fire retardant mattress is a crucial safety feature in hospitals and medical facilities, designed to prevent fires from starting and spreading. It is made with special materials that are resistant to flames and is also designed for patient comfort and support, with features such as pressure relief foam and a durable, washable cover. By reducing the risk of fires in medical settings, these mattresses help to protect both patients and staff.

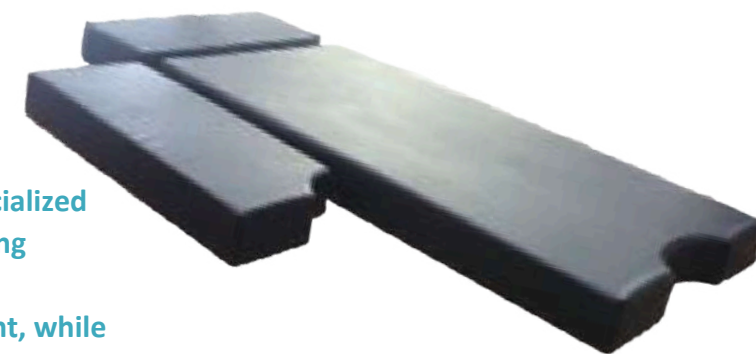

## Universal Operation Table Foam Pad

OTP-001 - 1960 x 500 x 100mm

**Material:** PU Leather + PU Foam

The Universal Operation Table Foam Pad is a specialized foam pad designed for use on surgical tables during medical procedures. It is designed to provide a comfortable and supportive surface for the patient, while also helping to reduce the risk of pressure ulcers and other complications associated with prolonged periods of immobility.

## Butierfly Shape Gel Ergonomic Memory Foam Pillow

SS-PLM-003G - 560x330x70-100mm

### High-Density Memory Foam + Air Layer Fabric + Gel

The Butierfly Shape Gel Ergonomic Memory Foam Pillow is a specialized pillow designed to provide optimal support and cooling comfort for your neck and shoulders. The unique butierfly shape of the pillow contours to the natural curve of your neck and shoulders, promoting proper spinal alignment and reducing pressure points.

## B-Shape Cooling Gel Side Sleep Memory Foam Pillow

SS-PBM-004G - 600x400x90-110mm

### High-Density Memory Foam + Air Layer Fabric + Gel

The B-Shape Cooling Gel Side Sleep Memory Foam Pillow is a specialized pillow designed for side sleepers. It features a combination of memory foam and cooling gel technology to provide a comfortable and supportive sleeping experience.

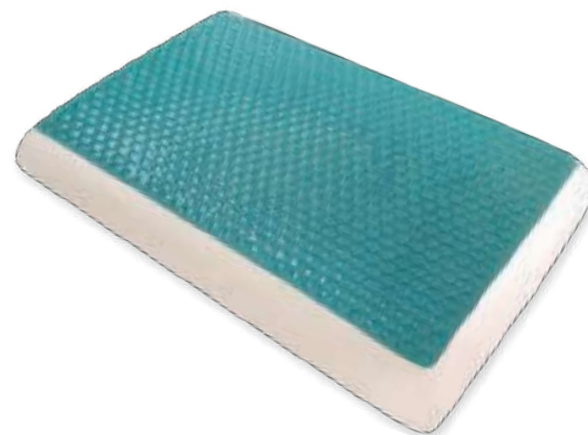

## Classic Rectangle GEL Memory Foam Pillow

SS-PCLM-002G - 600 x 350 x 70-130mm

### High-Density Memory Foam + Air Layer Fabric + Gel

The Classic Rectangle GEL Memory Foam Pillow is a specialized pillow designed to provide enhanced support and cooling comfort. The pillow is made of memory foam, which conforms to the shape of your head and neck to provide customized support, and features gel technology to help regulate your body temperature.

## Butierfly Shape Ergonomic Memory Foam Pillow

SS-PLM-003 - 560x330x70-100mm

### Material: High-Density Memory Foam + Air Layer Fabric

The Butierfly Shape Ergonomic Memory Foam Pillow is a specialized pillow designed to provide optimal support and comfort for your neck and shoulders. The unique butierfly shape of the pillow contours to the natural curve of your neck and shoulders, promoting proper spinal alignment and reducing pressure points.

## B-Shape Side Sleep Memory Foam Pillow

SS-PBM-004 - 600x400x90-110mm

### Material: High-Density Memory Foam + Air Layer Fabric

The B-Shape Side Sleep Memory Foam Pillow is a specialized pillow designed for individuals who prefer to sleep on their side. The pillow is made of memory foam, which conforms to the shape of your head and neck to provide customized support.

## Classical Rectangle Memory Foam Pillow

SS-PCLM-002 - 600 x 350 x 70-130mm

### Material: High-Density Memory Foam + Air Layer Fabric

The Classical Rectangle Memory Foam Pillow is a standard-shaped pillow made of memory foam. Memory foam is a type of polyurethane foam that responds to pressure and heat, conforming to the shape of your head and neck to provide customized support.

## Baby Cooling Gel Pillow

SS-CCP-001 150 x 220mm

Material: Gel + Nylon

Baby cooling gel pillows are designed to offer proper support for a baby's head and neck. They often come with a contoured shape to help prevent flat head syndrome and maintain a healthy head shape as the baby grows.

## Adult Cooling Gel Pillow

SS-ACP-001 - 270 x 550mm

Material: Gel + Nylon

Cooling gel pillows often feature memory foam or other supportive materials that conform to the shape of the head and neck, promoting proper spinal alignment and reducing pressure points for a more comfortable sleep.

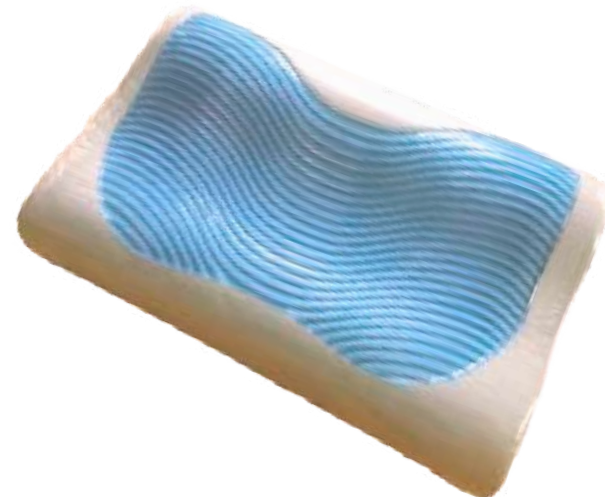

## B-Shape Cooling Gel Side Sleep Carbon Memory Foam Pillow

SS-PCM-005G - 600 x 400 x 90 - 110mm

Material: High-Density Memory Foam + Air Layer Fabric + Carbon Powder + Gel

The B-Shape Cooling Gel Side Sleep Carbon Memory Foam Pillow is a specialized pillow designed to provide support and comfort for side sleepers. The pillow is made of memory foam, which conforms to the shape of your head and neck to provide customized support.

## Memory Foam Face Cushion

SS-FM-006 - 255 x 295 x 40mm

Material: High-Density Memory Foam + Breathable Cotton Cover

A Memory Foam Face Cushion is a specialized pillow designed to provide comfort and support for your face during the massage or other facial treatments. The cushion is typically made of memory foam, which conforms to the shape of your face and helps to reduce pressure points.

## High-Density Memory Foam Neck Travel Pillow

SS-PNM-001 - 240 x 240mm

Material: High-Density Memory Foam + Velvet Cover

A high-density memory foam neck travel pillow is a type of pillow designed to provide support and comfort to the neck and head during travel, such as in airplanes or cars. These pillows are typically made of high-density memory foam, which is designed to contour to the shape of the neck and provide customized support.

## U Shaped Pillow Crystal Velvet Pregnant Women Support Pillow

SS-CEPP-001 - 1400 x 700 x 200mm

Material: Cotton + Velvet Cover

The U-Shaped Pillow Crystal Velvet Pregnant Women Support Pillow is a specialized pillow designed to provide comfort and support for pregnant women. The U-shaped design of the pillow wraps around your body, providing support for your head, neck, back, hips, and legs.

## Double layer inflatable Air cushion

SS-ESA-003 - 420 x 420 x 40mm

Material: TPU+ PU Foam +Steel Valve

A double-layer inflatable cushion is a type of cushion that is designed to be lightweight, portable, and customizable to fit the individual's needs. The cushion typically consists of two layers of material, with an inner layer that is inflated with air to provide cushioning and an outer layer that is made of durable, easy-to-clean material.

## Compound Breathable Gel Pressure-Relieving Seat Cushion

Material: GEL + Lycra Cover+PU Foam

SS-WGM-003 - 420 x 420 x 40mm

A compound breathable gel pressure-relieving seat cushion is a type of cushion designed to provide a comfortable and supportive seating experience while reducing pressure on the user's back, hips, and legs. It features a unique design that combines a breathable mesh material with pressure-relieving gel strips.

## Gel Protective Ridge Seat Cushion

SSC-033 x 460 x 400 x 25mm

Material:TPU + Gel

Gel Protective Ridge Seat Cushion is a type of cushion designed for providing comfort and support while sitting. The "gel" aspect might indicate that the cushion contains a gel layer or material that could offer additional cushioning and potentially help distribute weight more evenly. The "protective ridge" could refer to a raised or contoured portion of the cushion meant to provide additional support or alignment for the user's back, spine, or hips.

## Rubber Inflatable Seat Cushion 16 / 18

SS-AIR-001 16 - 390 x 390 x 70mm

SS-AIR-001 18 - 400 x 400 x 60mm

Material:Rubber + Steel Valve

A rubber inflatable seat cushion is a type of cushion that is designed to provide comfort and support for individuals who sit for extended periods of time. The cushion consists of an inflatable rubber bladder that can be inflated or deflated to provide customized support.

## 6x6 Self-Inflatable Air Cushion

SS-WIT-008 - 420 x 420 x 52mm

Material: TPU+ PU Foam +Steel Valve

A 6x6 self-inflatable air cushion is a type of cushion that is designed to provide cushioning and support for a variety of activities. The cushion is typically made of lightweight, durable materials and is designed to be portable and easy to use.

## GEL Cube Wheelchair Seat Cushion

918100 - 406 x 407 x 13mm

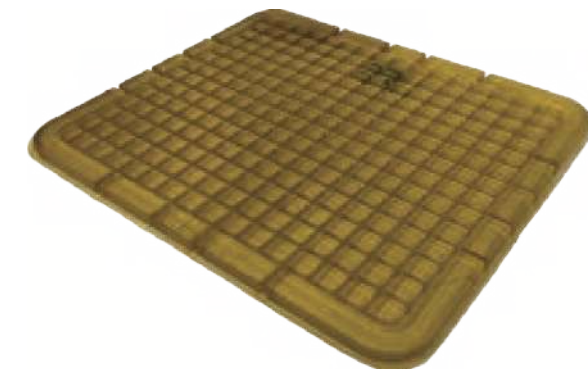

918101 - 457 x 408 x 14mm

918102 - 508 x 457 x 14mm

918103 - 559 x 457 x 14mm

Material:TPU + Gel

A Gel Pad Seat Cushion is a type of cushion designed to provide additional comfort and support to those who spend extended periods sitting. The cushion typically features a layer of gel encased in a foam or fabric cover, which conforms to the shape of the body and helps distribute weight evenly.

## Hollow Gel Hemorrhoids Recovery Cushion

SS-RHG-005 -  $\phi$  425 x 90mm

**Material:** PU Gel + PU foam + Mesh Cover

A hollow gel hemorrhoids recovery cushion is a type of cushion designed to provide relief to individuals who are experiencing discomfort or pain associated with hemorrhoids or other medical conditions affecting the pelvic region. It features a unique design that includes a hollowed-out area in the center of the cushion, as well as gel-infused padding.

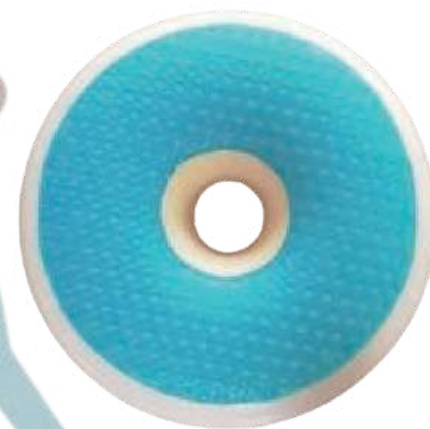

## Gel Round Hollow Seat Cushion

SSC-027 -  $\phi$  410 x 80mm

**Material:** GEL + Mesh Cover+PU Foam

A gel round hollow seat cushion is a type of cushion designed to provide comfort and pressure relief to individuals who sit for extended periods. It features a circular shape with a hollow center filled with gel, which can conform to the user's body shape and provide cushioning and support.

## Donut Seat Cushion With Gel

SSC-021 - 450 x 350 x 80mm

**Material:** High-Density Memory Foam + Cotton Cover+Gel

A donut seat cushion with gel is a type of cushion that is designed to provide comfort and support for individuals who experience pain and discomfort in the tailbone or perineal area. The cushion is shaped like a donut or a ring, with a hollow center that reduces pressure on the tailbone and surrounding area.

## Oval Shape Foam Seat Cushion

SSC-026 - 400 x 330 x 80mm

**Material:** Mesh Cover+PU Foam

An oval shape foam seat cushion is a type of cushion designed to provide comfort and support to individuals who sit for extended periods. It typically features an oval shape and is made of foam, which conforms to the user's body shape and provides cushioning.

## Inflatable Oval Seat Cushion

SSC-030 -  $\phi$  390mm

**Material:** PVC

An inflatable oval seat cushion is a type of cushion that can be inflated with air to provide comfort and support to individuals who sit for extended periods. It typically features an oval shape and is made of durable materials such as PVC or vinyl.

## Hollow Hemorrhoids Recovery Cushion

SS-RHP-004 -  $\phi$ 425 x 80mm

**Material:** Mesh Cover+PU Foam

A hollow hemorrhoids recovery cushion is a type of cushion designed to provide relief to individuals who are experiencing discomfort or pain associated with hemorrhoids or other medical conditions affecting the pelvic region. It features a unique design that includes a hollowed-out area in the center of the cushion.

## Portable Thermal Seat Cushion

SSC-047 - Ø350 x 15 mm

Material : 100% Recycled polyester, with PU coating Aluminium-foil,

Portable Thermal Seat Cushion designed for comfort and support, suitable for outdoor activities, long car rides, and office chairs. Lightweight and durable with ergonomic design for proper posture and pressure relief on lower back and hips. Ideal for sports events, camping, or work-from-home situations, ensuring coziness and comfort in any seating scenario.

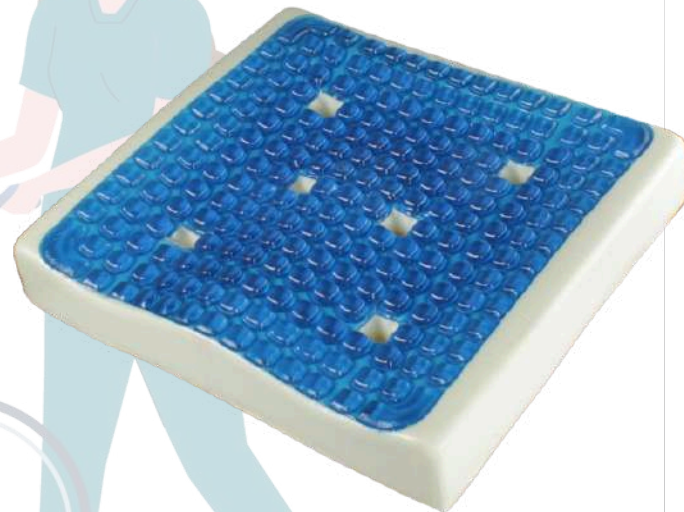

## Gel Cooling Wheel Chair Cushion

SSC-034G - 420 x 420 x 80mm

Material : Gel + Memory Foam

The Gel Cooling Wheel Chair Cushion offers comfort and relief from heat with advanced gel technology, breathable fabric, and portability. It provides support, cooling, and dryness for wheelchair users, office workers, or anyone who sits for long periods.

## Horse Toe Gel Memory Seat Cushion

SSC-036 - 420 x 380 x 50mm

Material : Gel + Memory Foam

The Horse Toe Gel Memory Seat Cushion offers comfort and support for equestrians with advanced gel memory foam that reduces pressure points. Its breathable cover keeps you cool and dry during rides, improving stability and posture while reducing fatigue.

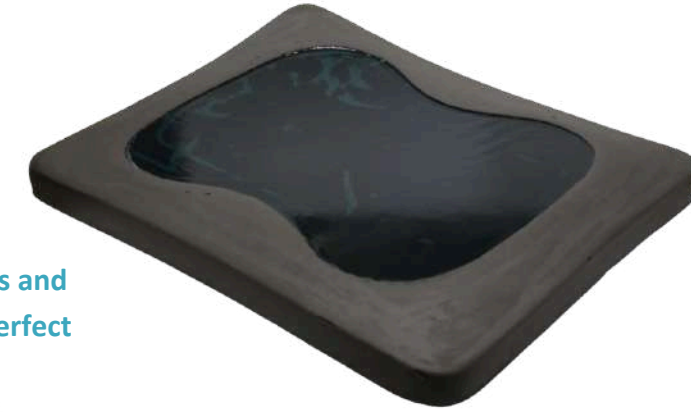

## Gel Cooling Bamboo Seat Cushion

SSC-037 - 500 x 400 x 30mm

Material : Bamboo + Gel + Memory Foam

Stay cool and comfy with the Gel Cooling Bamboo Seat Cushion. Made from bamboo and gel, it offers freshness and comfort for office, car, or reading spots. Designed for perfect posture, eco-friendly, and ergonomic.

## Thigh Cooling Bamboo Seat Cushion

SSC-039 - 420 x 350 x 60mm

Material : Bamboo + Gel + Memory Foam

Thigh Cooling Bamboo Seat Cushion offers comfort and support, keeping you cool with bamboo fabric that wicks away moisture. Its ergonomic design provides lumbar support and reduces spine pressure, ideal for various activities.

## Light Weight Gel Cooling Seat Cushion

SSC-038M - 420 x 420 x 10mm

SSC-038 - 450 x 360 x 10mm

Material : Lycra + Gel

The Light Weight Gel Cooling Seat Cushion offers comfort and relief during long periods of sitting. It reduces pressure on the tailbone, promotes better posture with innovative gel technology, and is lightweight and portable for use at home, in the office, or in the car. The breathable cover ensures optimal air circulation for a cool and comfortable experience while working, driving, or relaxing.

## Donut Shaped Seat Cushion

SSC-040 - 420 x 430 x 110mm

Material : Memory Foam

Donut-shaped seat cushion for hemorrhoids provides optimal support and relief. It alleviates pressure and pain, fits the body comfortably, and is easy to maintain with a machine-washable cover.

## Ergonomic Seat Cushion With Cooling Gel

SLC-041 - 460 x 390 x 100mm

Material : Gel + Memory Foam

Innovative Ergonomic Seat Cushion With Cooling Gel offers ultimate comfort and support for long hours of sitting. Features cooling gel layer for temperature regulation, promotes proper posture, and is suitable for office, home, or car use. Made from durable materials, retains shape, and has an easy-to-clean removable cover. Say goodbye to discomfort with this cushion.

## B- Shaped Light Weight Gel Cooling Seat Cushion

SSC-042 - 375 x 260 x 20mm

Material : Gel

A B-Shaped lightweight gel cooling seat cushion designed for maximum comfort during long periods of sitting. Ideal for various seating arrangements, it contours to the body, relieves pressure points, and stays cool. Portable for on-the-go comfort, it's beneficial for back pain relief and overall seating improvement.

## Gel Cooling Moisture Absorbing Seat Cushion

SSC-043 - 430 x 430 x 20mm

Material : Gel

The Gel Cooling Moisture Absorbing Seat Cushion offers comfort, temperature regulation, and moisture absorption with advanced gel technology. Its ergonomic design promotes proper posture, reducing back pain. Portable and easy to clean, it enhances sitting experience at work, home, or on the go.

## Tail Bone Hemorrhoids Sugry Ergonomic Office Seat C

SSC-046 - 450 x 390 x 65~120mm

Material : Gel + Memory Foam

The Tail Bone Hemorrhoids Surgery Ergonomic Office Seat Cushion offers comfort and support for tailbone pain, hemorrhoids, and post-surgery recovery. Made of high-density memory foam, it conforms to your body's curve, reduces pressure, and promotes proper posture. The breathable cover keeps you cool, the non-slip bottom secures it on any chair. Ideal for office, car, or home use for relief and improved seating comfort.

## Butterfly Shaped Gel Cooling Seat Cushion

SSC-045 - 450 x 420 x 50mm

Material : Gel + Memory Foam

The Butterfly Shaped Gel Cooling Seat Cushion offers comfort and support with a unique design that adapts to body contours. It disperses heat, provides a calming sitting experience, and improves posture on various seats. Ideal for office chairs, car seats, or wheelchairs, it ensures comfort and style during long periods of sitting.

## Dome shape breathable lumber cushion

SLC-043 - 380\*320\*120mm

**Material: memory foam**

A dome-shaped breathable lumber cushion offers comfort, durability, and airflow to prevent heat buildup. Made from sustainable materials, it promotes good posture and relaxation, suitable for outdoor or indoor use, blending style, comfort, and sustainability.

## Ergonomic Office cushion

SLC-042 - 385\*440\*95mm

**Material: memory foam**

An ergonomic office cushion enhances comfort and support during long sitting periods. Its contoured shape promotes good posture, reduces lower back strain, and is made of high-quality memory foam for personalized support. The washable cover adds durability and hygiene, making it suitable for home or office use to boost productivity and well-being.

## Tail Bone Hemorrhoids Sugry Ergonomic Office Seat Cushion

SSC-046 - 425\*465\*85mm

**Material: memory foam**

The Tail Bone Hemorrhoids Surgery Ergonomic Office Seat Cushion is designed with high-density memory foam to provide comfort and support for long hours of sitting. It alleviates tailbone pressure, reduces hemorrhoid risk, promotes healthy posture, and reduces back pain. The cushion has a washable cover for hygiene and durability, making it essential for work or driving comfort.

## Breathable lumber cushion

SLC-044 - 450\*380\*65mm

**Material: memory foam**

Breathable lumber cushions for outdoor furniture offer comfort, durability, and aesthetics. They prevent moisture buildup, come in various colors, and are eco-friendly. Easy to clean and long-lasting, they enhance outdoor spaces with style and sustainability.

## Ergonomic Side Sleep Pillow

SSP-036 - 660\*365\*1500mm

**Material: memory foam**

The Ergonomic Side Sleep Pillow, made of high-quality memory foam, provides comfort and support for side sleepers by contouring to neck and shoulder curves. It promotes proper spinal alignment, alleviates pressure points, and has a soft, hypoallergenic cover. Ideal for those with neck pain or allergies, it ensures restful nights and refreshed mornings for overall well-being.

## Ergonomic Office Nap Pillow

SSP-035 - 440\*390\*100mm

**Material: memory foam**

Revolutionize workplace comfort with the Ergonomic Office Nap Pillow, crafted with memory foam for neck and back support. Its portable design fits any office, with a hypoallergenic cover for comfort. Take rejuvenating power naps to boost productivity and well-being in your personal oasis at work.

## Coccyx Orthopedic Gel Seat Cushion

SSC-015 - 450 x 350 x 100mm

**Material: High-Density Memory Foam + Cotton**

A coccyx orthopedic gel seat cushion is a type of cushion that is designed to provide relief from tailbone pain, also known as coccydynia. It is typically used by individuals who have to sit for extended periods, such as office workers, drivers, and individuals with tailbone injuries or conditions.

## Ergonomic Office Spine Protection Cushion

SS-OEM-011 - 450 x 350 x 100mm

**Material: High-Density Memory Foam**

An ergonomic office spine protection cushion is a type of cushion that is designed to provide support and promote good posture for individuals who sit for extended periods of time. The cushion is designed to conform to the natural shape of the spine and provide support for the lower back, helping to reduce pain and discomfort associated with prolonged sitting.

## Office High-Density Memory Foam Cushion

SS-OSM-009 - 435x405x55mm

**Material: High-Density Memory Foam + Cotton Cover**

An office high-density memory foam cushion is a type of cushion designed to provide support and comfort to individuals who spend long hours sitting in an office chair. These cushions are made from high-density memory foam, which conforms to the shape of the body to provide customized support.

## Orthopedic Seat Cushion

SSC-004 - 390 x 410 x 25~100mm

**Material: High-Density Memory Foam + Cotton Cover**

An orthopedic seat cushion is a type of cushion that is designed to provide support and comfort while sitting. It is made of materials that are ergonomically designed to support the natural curve of the spine and provide maximum comfort.

## Economic Gel Seat Cushion

SSC-017 - 450 x 400 x 50mm

**Material: High-Density Memory Foam + Nylon Cover + Gel**

An ergonomic gel seat cushion is a type of cushion that is designed to provide comfort and support for individuals who have to sit for long periods of time, such as office workers, drivers, and individuals with mobility issues. The design of the ergonomic gel seat cushion is intended to provide comfort, support, and reduce the risk of pressure sores while sitting for long periods. It helps to reduce pressure on the hips and buttocks, improving blood circulation, and reducing the risk of developing pressure sores.

## Comfy Wheelchair Cushion

SSC-005 - 1100 x 960mm

**Material: High-Density Memory Foam + Cotton Cover**

An orthopedic seat cushion is a type of cushion that is designed to provide support and comfort while sitting. It is made of materials that are ergonomically designed to support the natural curve of the spine and provide maximum comfort.

## High-density decompression and breathable seat cushion

SSC-032 - 400x400x50mm

Material: 80D PU Foam + Cover

The seat cushion is designed to offer better support and pressure relief, especially for individuals who sit for extended periods. High-density foam is known for its ability to distribute weight more evenly, reducing pressure points and providing better support to the user. Decompression in this context implies that the cushion helps relieve pressure on the spine and surrounding areas.

## Mesh Air Circulation Seat Cushion

SS-SMESH-007 - 400 x 400 x 50mm

Material: Mesh+ Mesh Cover

A mesh air circulation seat cushion is a type of cushion designed to provide comfortable seating while promoting air flow and reducing heat buildup. The cushion is typically made of a breathable mesh material that allows air to circulate through the cushion and around the user's body, helping to keep them cool and comfortable.

## Egg Crate Foam Wheelchair Cushion

SSC-008 - 450 x 400 x 75mm

High-Density Memory Foam + Cotton Cover

An egg crate foam wheelchair cushion is a type of cushion that is designed to provide comfort and support for individuals who use a wheelchair. It is made of materials that are designed to distribute pressure evenly and reduce the risk of pressure sores.

## Wheelchair Non-slip Mat

SS-ASF-001 - 450 x 370 x 20mm

Material: Non-slip Fabric

A wheelchair non-slip mat is a type of mat designed to provide traction and stability for wheelchairs on various surfaces. It is typically made of a durable and slip-resistant material that provides a stable surface for the wheelchair wheels to grip onto.

## Horse Saddle Gel Cushion

SSC-025 - 352 x 510 x 12mm

Material: Gel + Lycra

A horse saddle gel cushion is a type of cushioning material designed to be placed between a horse's back and the saddle. The cushion is made of a gel-like material that conforms to the shape of the horse's back, providing a comfortable and supportive surface for the horse to carry the rider.

## Comfort Horse Saddle Gel Cushion

SSC-024 - 445 x 545 x 12mm

Material: Gel + Lycra

A horse saddle gel cushion is a type of cushioning material designed to be placed between a horse's back and the saddle. The cushion is made of a gel-like material that conforms to the shape of the horse's back, providing a comfortable and supportive surface for the horse to carry the rider.

## Gel Swivel Seat Cushion

SSC-018 - 400 x 400 x 55mm

Material: High-Density Memory Foam + Cotton Cover

A gel swivel seat cushion is a type of cushion that is designed to provide comfort and support for individuals who need to sit and rotate frequently, such as people who work at a desk or in a vehicle.

## Breathable Ergonomic Pillow

SSP-033 - 600 x 430 x 110mm

Material: memory foam

The Breathable Ergonomic Pillow offers optimal comfort and support for a restful night's sleep. Crafted with high-quality, breathable materials, it ensures proper air circulation, ergonomic design for head and neck support, and adapts to different sleeping positions. It enhances overall sleep quality for a refreshed morning wake-up.

## Ergonomic Office Lumbar Cushion

SLC-045 - 410 x 455 x 145mm

Material: memory foam

The Ergonomic Office Lumbar Cushion provides ultimate comfort and support by promoting proper posture and reducing strain on the spine. Crafted from high-density memory foam, it conforms to the back's natural curve for personalized comfort. With adjustable straps and a breathable, removable cover, it's suitable for various settings. Investing in this cushion enhances health and well-being for a pain-free work experience.

## Ergonomic Wheelchair Foam Seat Cushion

SSC-034 - 420 x 420 x 80mm

Material: PU Foam+ Black Cool & Breathable Cover

An ergonomic wheelchair foam seat cushion is a specialized cushion designed to provide comfort, support, and proper posture for individuals using wheelchairs. These cushions are created with ergonomic principles in mind, focusing on the comfort and well-being of the wheelchair user.

## Multifunction Ergonomic Office Nap Pillow

SSP-034 - 280 x 255 x 120mm

Material: memory foam

The Multifunction Ergonomic Office Nap Pillow offers maximum comfort and support for long desk hours. Its unique shape supports head, neck, and arms, reducing strain. Made from high-quality materials, it is breathable and portable for comfort on the go. Suitable for office workers, students, and travelers, it provides a new way to rejuvenate during the workday.

## Cooling Bean Seat Cushion

SS-OST-010 - 440 x 440 x 30mm

Material: TPE + Lycra Cover

A cooling bean seat cushion is a type of cushion designed to provide a comfortable and cool seating experience. These cushions are typically filled with small polystyrene beads or "beans," which conform to the shape of the user's body to provide customized support. The cushion is designed to be used on a variety of seating surfaces, including chairs, benches, and even the floor.

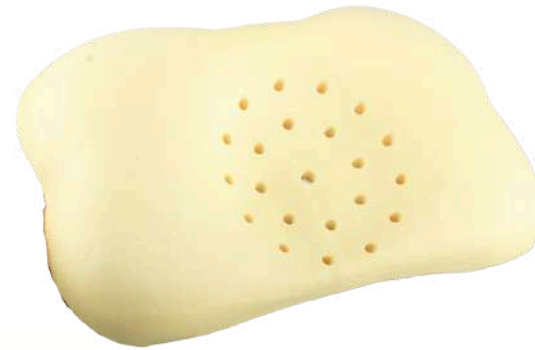

## Neonatal Breathable Pillow

SSP-031 - 345 x 215 x 50mm

**Material: memory foam**

Neonatal Breathable Pillow ensures newborn safety and comfort with hypoallergenic materials, gentle support, and breathable fabric to prevent overheating. It is machine washable and suitable for cribs, bassinets, and strollers, providing peace of mind for parents and a cozy rest for babies.

## Neonatal Breathable Bear Shape Pillow

SSP-032 - 280 x 205 x 30mm

**Material: memory foam**

**Cover: 80%cotton+ 15%polyester + 5%spandex**

The Neonatal Breathable Bear Shape Pillow is designed for baby comfort and safety. Made from soft, breathable materials, it supports a newborn's head and neck for proper alignment. The bear shape reduces the risk of flat head syndrome. Easy to clean and hypoallergenic, it provides a cozy and hygienic environment for babies, promoting restful sleep for both baby and parents.
