

• TYVEK® STERILIZATION ROLLS

- Sudemed sterilization rolls made of Tyvek® material are made of multi-layer copolymer PET/PE film and DuPont Tyvek® material with high tear resistance.
- In addition to being used for hydrogen peroxide gas plasma sterilization in hospitals, Tyvek® rolls are also used for EO and gamma sterilization in industry.
- It consists of a reinforced film that prevents the risk of tearing in the latest technological production processes. Solvents are not used in our film laminations.
- All rolls are available with water-based, non-toxic hydrogen peroxide (H2O2) process indicators.
- Conforms to EN 868-5 standard.

Product Code	Product Name	Size	Pack
SDMTY0570	Tyvek Sterilization Roll	5 cm x 70 m	12
SDMTY7570	Tyvek Sterilization Roll	7,5 cm x 70 m	8
SDMTY1070	Tyvek Sterilization Roll	10 cm x 70 m	8
SDMTY1570	Tyvek Sterilization Roll	15 cm x 70 m	4
SDMTY2070	Tyvek Sterilization Roll	20 cm x 70 m	4
SDMTY2570	Tyvek Sterilization Roll	25 cm x 70 m	2
SDMTY3070	Tyvek Sterilization Roll	30 cm x 70 m	2
SDMTY3570	Tyvek Sterilization Roll	35 cm x 70 m	2
SDMTY4070	Tyvek Sterilization Roll	40 cm x 70 m	2
SDMTY5070	Tyvek Sterilization Roll	50 cm x 70 m	2
SDMTY6070	Tyvek Sterilization Roll	60 cm x 70 m	2
