

Cure Adaptive Inpatient Care Trousers

Product Description:

Cure Adaptive Inpatient Care Pants are designed to facilitate the need for treatment processes and post-operative care. Thanks to its inner lining and side zips, the dressing and undressing of patients is made practical. Offering easy use for both patients and caregivers, these sweatpants are an option that can be used easily in daily life.

Unisex and Stylish:

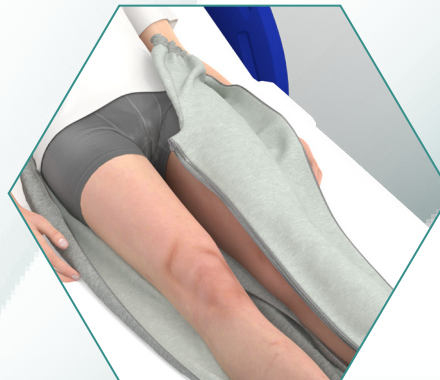

It is suitable for both men and women; with its neutral colours and modern cut, it can be easily combined in everyday life.

Easy Care:

Machine washable; long lasting with its high durability fabric.

You can easily adjust it according to your body with the rubber on the waist part.

The Full Zip on the Inner Web Part Provides a Practical Experience by Providing Ease of Use.

Using the full zip on the right side, the patient can easily remove his trousers without moving.
