

Cure Adaptive Postoperative Care Suit

Right and left arms can be opened from the shoulder with snap fasteners.

Easy snaps for easy dressing and undressing.

Thanks to the pockets on the right and left inner parts, you can easily carry urine, drain and serum bags.

Flexible and Soft Fabric:

It offers a skin-friendly, soft and flexible texture with its knitted structure. It provides all-day comfort and is ideal for sensitive skin.

Unisex Use:

With its neutral colours and modern cut, it is suitable for both men and women. **Physical Mobility:** Thanks to its snap design, it allows easy position change during physical therapy or examination.

Easy Care:

Machine washable and offers durability for long term use.

Uses:

Cure Adaptive Postoperative Care Suit is ideal for daily use in treatment centres, hospital or at home, offering extra comfort in post-operative, plaster casts or other processes requiring restricted movement.
