

Cure Adaptive Prostate and Treatment Trousers

Product Description:

Cure Adaptive Prostate and Treatment Pants are specially designed to provide comfort and functionality for patients undergoing treatments and dialysis therapy, as well as post-operative processes.

Drain and Urine Bag Compatible Design:

Hidden holes in the two cargo pockets allow for easy attachment of drain and bladder hoses.

Drain Holes:

Drain holes at the bottom of the pockets allow you to easily empty without removing the drain or urine bag.

Easy dressing and undressing with zip fastening:

The adaptive design makes dressing and undressing effortless.

Zips on the right and left side make it easy to put on and take off the product.

It provides easy use with its hidden bird's eye feature in the right and left cargo pockets for easy passage of the hoses of urine, drain and serum bags.

Right and Left Cargo Pockets Designed for Urine, Drain and Serum Bags.

Right and Left Cargo Pockets Designed for Discharging Urine, Drain Bags.
