

FENOFEM

The Natural Revolution for Women's Wellness

The innovative supplement for hormonal balance.

WHY WOMEN CHOOSE FENOFEM?

FENOFEM with its **patented Fenugreek extract**, offers a unique, science-backed solution. Meeting the rising global demand for natural female wellness products, it represents an opportunity to bring a **unique, high-value supplement** to the market.

-  **NATURAL SUPPORT** for women in menopause and those with low libido.
-  **PATENTED FORMULA:** Scientifically tested, top-quality raw materials.
-  **NO PHYTOESTROGENS:** Fenugreek extract stimulates endogenous testosterone and estradiol production.
-  **MADE IN ITALY:** Premium quality, crafted to the highest European standards.
-  **AN INNOVATIVE** and differentiated product in the market.

MENOPAUSE: A NATURAL TRANSITION, **BUT WITH CHALLENGES**

Menopause marks a profound hormonal shift, often leading to: **hot flashes and night sweats, mood swings, reduced energy levels, loss of sexual desire and poor lubrication.**

79.1% of menopausal women report decreased libido and various sex-related disorders.¹

LOW ESTRADIOL
LEVELS

Hot flashes, night sweats,
mood swings, etc.

LOW TESTOSTERONE
LEVELS

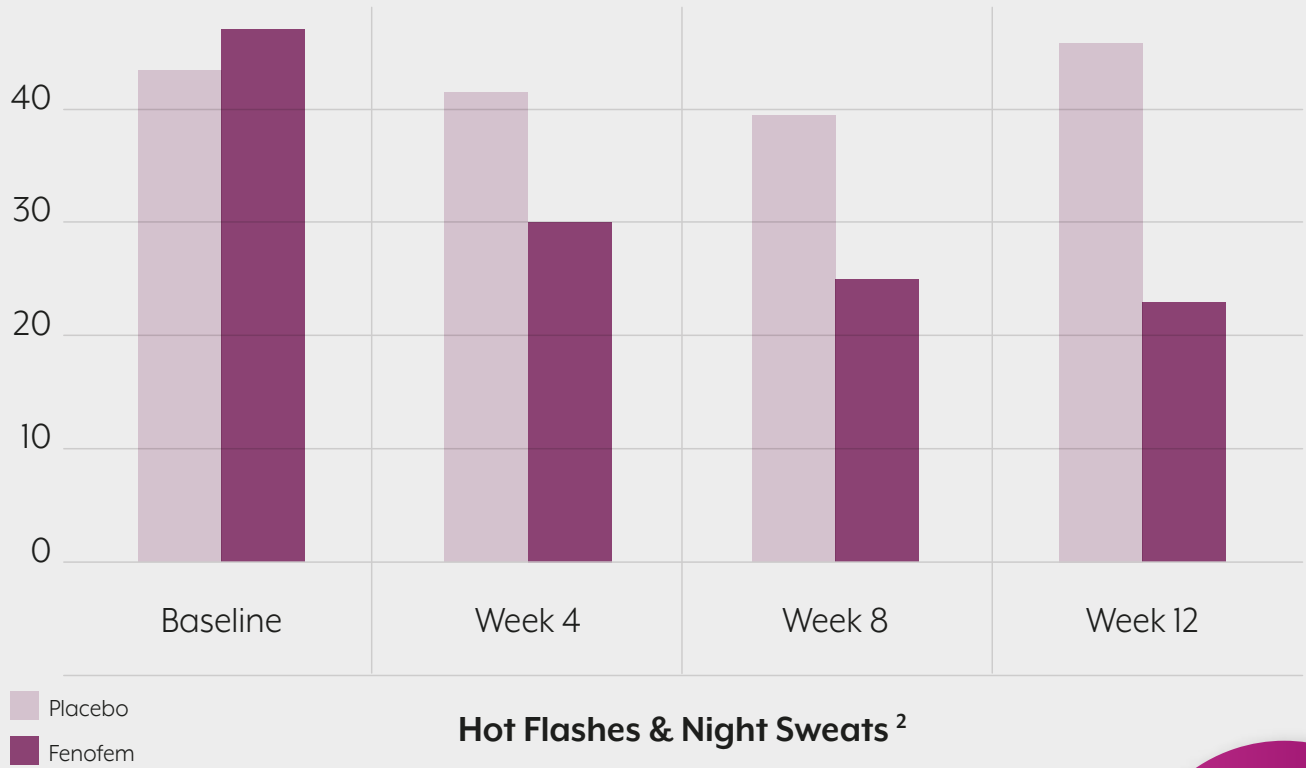

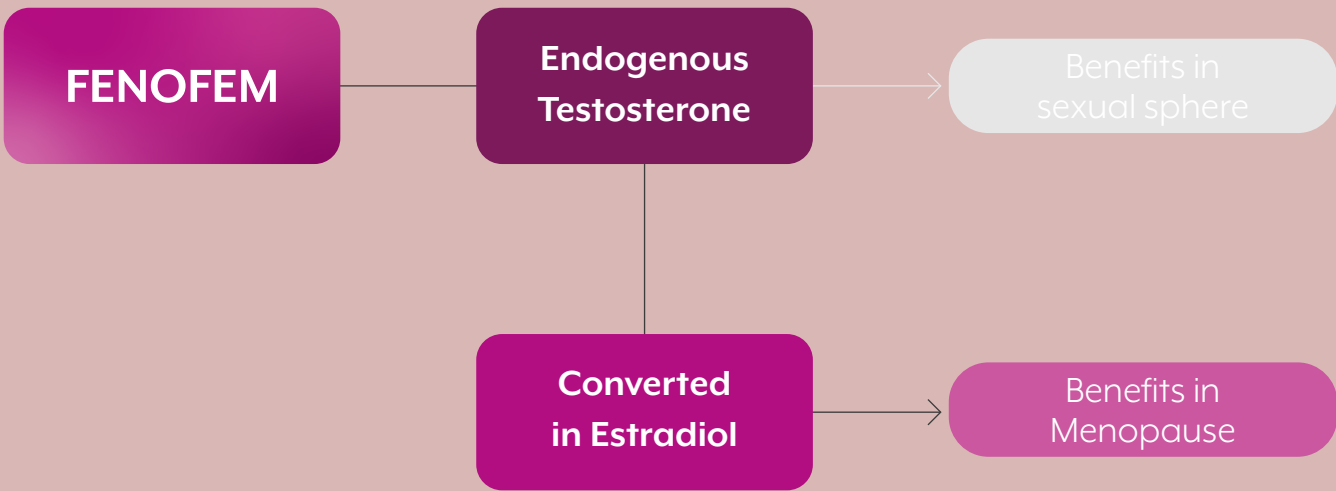

Loss of sexual desire

¹Joyce C Harper, Samantha Phillips, Rina Biswakarma, Ephraim Yasmin, Ertan Saridogan, Sheila Radhakrishnan, Melanie C Davies and Vikram Talaulikar - Women's Health Volume 18 (2022)

THE RIGHT SUPPORT DURING MENOPAUSE

The standardised fenugreek contained in **FENOFEM** restores hormonal balance by stimulating **endogenous testosterone production**. The testosterone is largely converted to estradiol, alleviating menopausal symptoms without the risks associated with phytoestrogens.

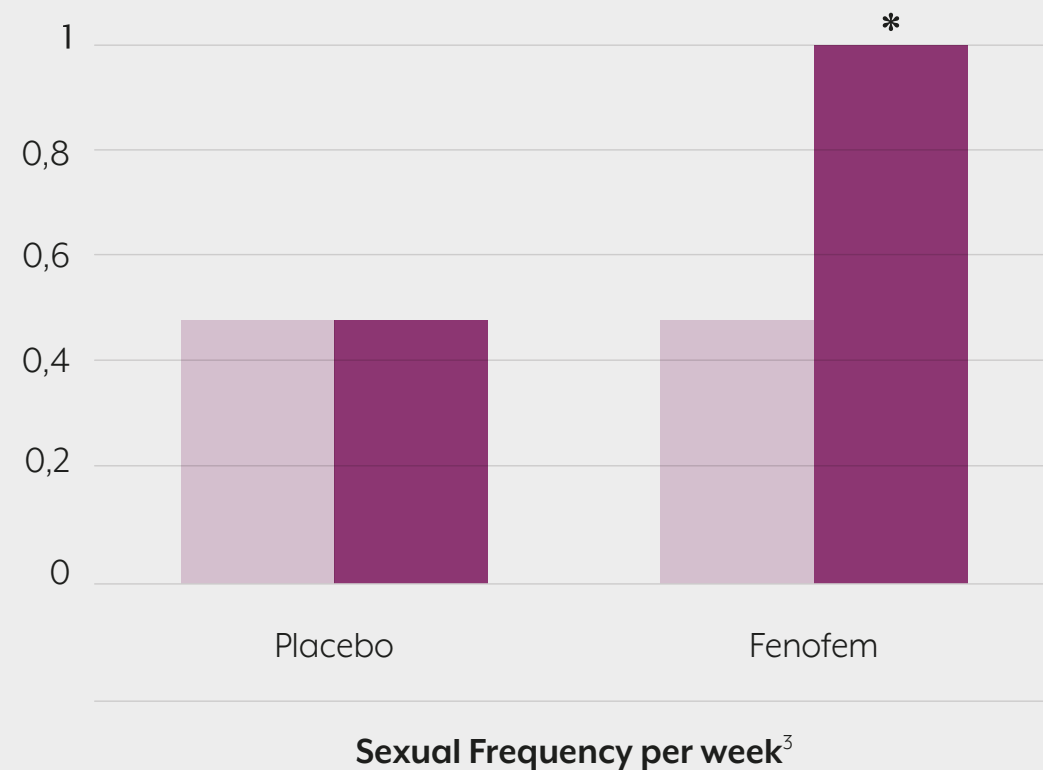

² E. Steels, M.L. Steele, M. Harold and S. Coulson - Phytother. Res. (2017)

+ 66%
% changed in levels of estradiol after 8 weeks

KEY BENEFITS:

- ✓ Reduces hot flashes and night sweats
- ✓ Naturally improves libido and sexual function
- ✓ Supports mood and emotional stability
- ✓ Helps maintain muscle mass and physical strength

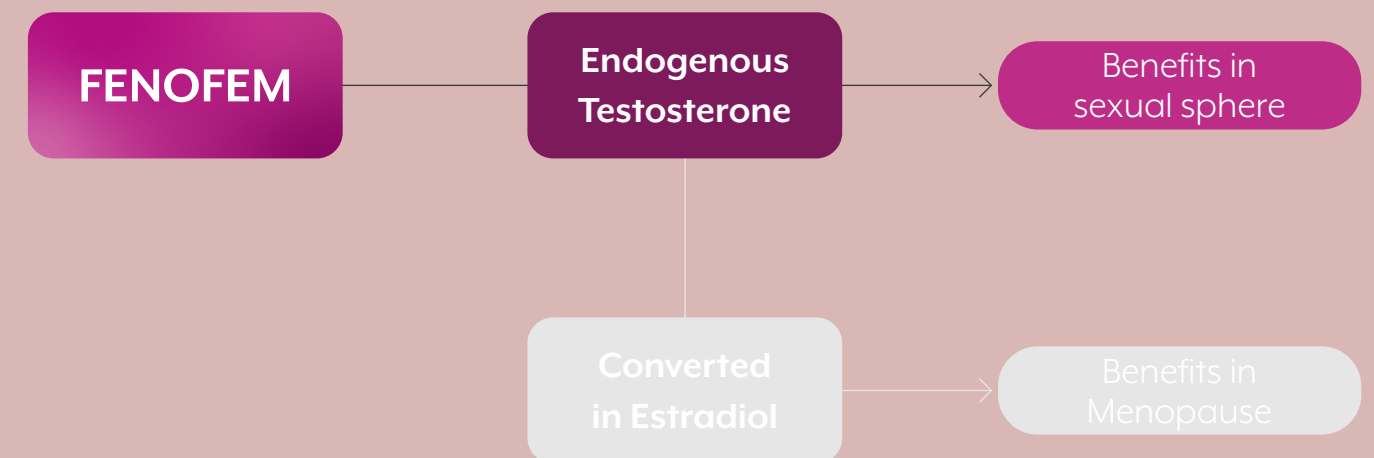

FENOFEM AMPLIFIES PLEASURE AND SATISFACTION

■ Baseline
■ 8 weeks

FENOFEM works from within by addressing the root cause of low libido: hormonal imbalance.

After 8 weeks of intake, **FENOFEM** increases blood levels of **testosterone**⁴ — leading to improved sexual desire, arousal, and **overall satisfaction**.

SATISFACTION AND WELLBEING
BETTER QUALITY OF RELATIONSHIP
BETTER QUALITY OF LIFE

³ Internal Study RDC Clinical. ⁴ Amanda Rao, Elizabeth Steels, Gavin Beccaria, Warrick J. Inder and Luis Vitetta - Phytother. Res. (2015).

LOW LIBIDO: A COMMON BUT OVERLOOKED ISSUE

WOMEN SEEK A NATURAL, SAFE AND EFFECTIVE SOLUTION TO REGAIN THEIR DESIRE AND IMPROVE THEIR QUALITY OF LIFE.

KEY FACTS:

- 39% of women report **low sexual desire**.
- Psychological stress, hormonal fluctuations and lifestyle factors contribute to **decreased arousal**.
- Many existing solutions rely on artificial hormones or **ineffective plant-based compounds**.
