# Latex Foley Catheter

# Latex Foley Catheter

# Latex Foley Catheter

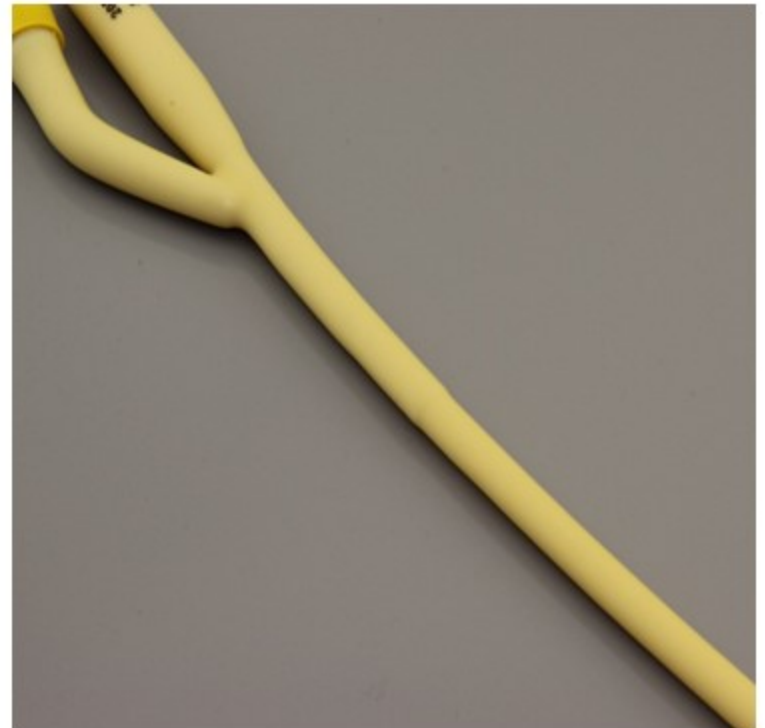

## Advantages:

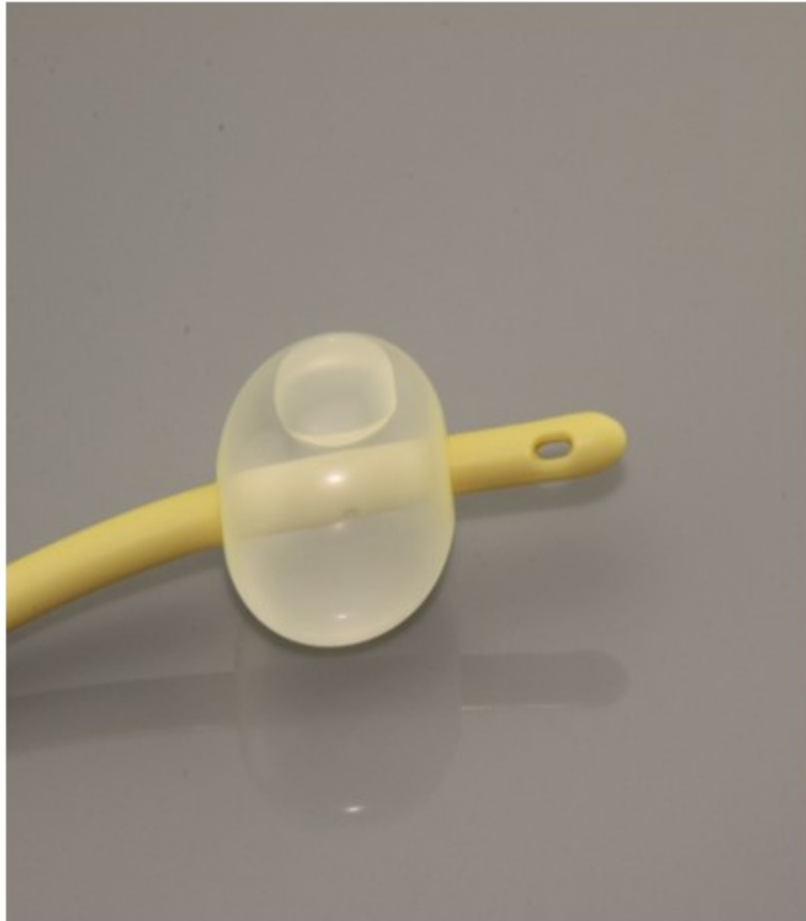

1. Latex material with 100% silicone coated, good for patients with latex allergy
2. Latex balloon with perfect rebound elasticity after deflation, less trauma and maximize patient comfort.

# Latex Foley Catheter

- **Surface**
  - Smooth surface and tip allows atraumatic insertion for enhanced patient conform
  - 100% silicone coated, good for patients with latex allergy
  - Hydrophilic coating is available
  - Thickened catheter tail, effectively avoids cavity collapse

# Latex Foley Catheter

- **Balloon**
  - Latex balloon is designed to retain its shape with good concentricity
  - Latex balloon with perfect rebound elasticity after deflation, less trauma and maximize patient comfort during removing catheter out of bladder through urethral
  - No balloon burst or leakage after being dipped inside artificial urine for 7 days
  - Capacity ranges from 3ml-50ml

# Latex Foley Catheter

- **Valve and types:**

- Available with Rubber valve (Soft valve) and Plastic valve (Hard valve)
- 2 way Fr 06-30
- 3 way Fr 16-30. The third channel is used to infuse sterile saline or another irrigation solution, and used after surgery on the bladder or prostate, to wash away blood and blood clots.
- Available with Coudé (tiemann) tip: catheter with a 45° bend at the tip, allows easier passage through an enlarged prostate

- Female type: length 240mm specially for female patients

# Latex Foley Catheter (Adult)

# Latex Foley Catheter (Pediatric)

# Reinforced 2-way Latex Foley Catheter

- **Features**

- Additional strength of the coils assures users that any blockage can be cleared by irrigation;
- Smooth surface and tip allows atraumatic insertion for enhanced patient conform;
- The coils add resistance to any collapse under the balloon

# LATEX MALECOT CATHETER

## Advantages:

- Medical-grade , natural latex
- Silicone coated.
- Available with hydrophilic coating.
- Length: 400 mm

# LATEX MALECOT CATHETER

## Features:

- Disposable latex malecot catheter is made from natural latex, silicone coated;
- Alternative sizes available (14Fr to 40Fr);
- Length: 400 mm
- CE, ISO 13485 approved.
- Available with hydrophilic coating type.

# LATEX URETHRAL CATHETER

- **Surface**
  - Smooth surface and tip allows atraumatic insertion for enhanced patient conform
  - 100% silicone coated, good for patients with latex allergy
  - Latex for increased radiopacity and firmness
  - Hydrophilic coating is available

# LATEX URETHRAL CATHETER

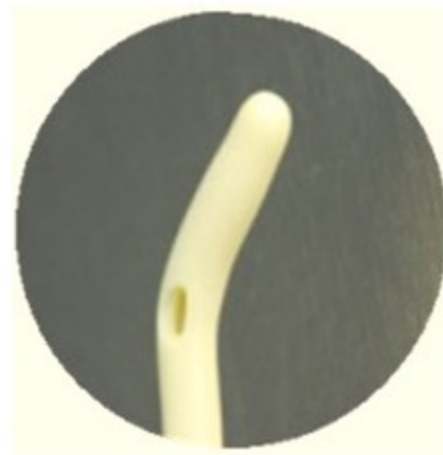

- **Lateral Eyes:**
  - Less trauma to urethral mucosa
  - Larger diameters maximize urine flow, and reducing clotting

# LATEX URETHRAL CATHETER

- **Surface**

- 1 way Fr 06-30
- Available with Coudé (tiemann) tip: catheter with a 45° bend at the tip, allows easier passage through an enlarged prostate
- Suitable for male and female catheterization
