

KimaBel LLC

Is an innovative company that occupies a leading position in the woodworking market

About the Company

KIMABEL LLC

Is a modern wood-processing plant.

Start of work: 2013.

We aim to improve all aspects in the field of production, sales and management in order to fully satisfy all the requirements of our partners.

PRODUCTION

Our company uses equipment with a worldwide reputation: Hewsaw, HEKOTEK, BaltBrand, Valonkone, Vollmer, Volvo, Linde MH, Sennebogen, AGRO Forst & Energietechnik.

Waste-free production: production of wood chips, sawdust, burk of high quality.

RAW MATERIALS

We purchase environmentally friendly raw materials of coniferous species (pine, spruce) of high quality.

FSC Certified.

We use the log sorting line for accurate determination of the quality and volumes of incoming raw materials and also for sorting by diameters.

SAWN TIMBER

The ideal geometry is achieved by the circular sawing. Wide range of timber sizes. A large assortment of planed and profiled products. Impregnation with antiseptic on the request of the customer. Chamber drying on the request of the client from 6% to 18%.

Reliable packaging against impact of the negative factors.

WORK AND DEVELOPMENT

We build reliable partnership with any interested party.

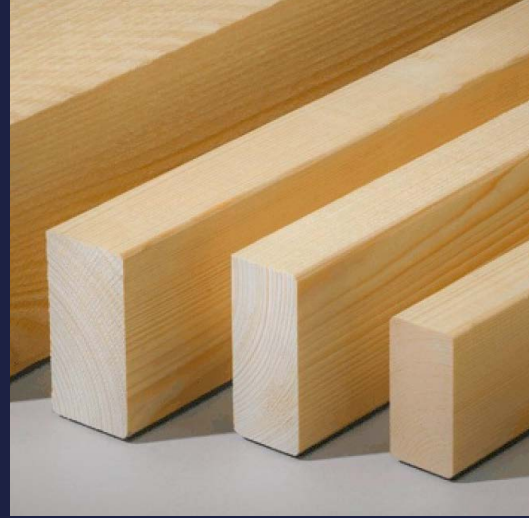

We work all over the world. We use any means of transport.

Constant introduction of new technologies into our production.
