# WIDE PRODUCT RANGE WITH 2 FACTORIES

# 1954

## Story Started

Our story started with plough production by Founder Selami PALAZ who immigrated from Greece. Brand was getting bigger with honesty and quality policy. He was making sales by him self at his workshop.

# 1960

## Horse Trailer

Palazoglu started to produce horse trailers due to plough users asks. Because everybody was satisfied with the quality of ploughs and they would like have trailer from same qualified hands.

# 1972

## Tractor Trailer

Palazoglu has adapted to evolving age of agriculture and changed horse trailers to tractor trailers. Palazoglu brand was registered as a trailer brand and brand had sales point and dealers.

# 2003

## Trailer Factory

Requests, users and dealers were increasing. Therefore Palazoglu moved to bigger place to catch more production capacity and innovative process. And we did. Palazoglu brand covered all Turkish border and started to be an alternative in Europe countries.

# 2022

## Global Player

2nd factory become necessary to reach more users with better product. And it started to production with 3th generation management. The power of production; It is evident from the products offered by providing high precision controls at every stage.

Palazoglu supplies the partner network with 2 different factories for different product lines.

To be sure of the quality of a product, it is very important to produce it entirely by yourself. Due to this fact, We are producing all construction of trailer in his production lines. Production process of Axles, sideboards, chassis, drawbars and their assemblation period complete in our production lines. Painting process is completing with electrostatic powder coating methot.

We increase satisfaction by minimizing the margin of error with production which is based on technology and software.

We know what's the **EFFORT.**

TRUST;

We trust our quality and the first step is make users trust the brand with quality and after sales activities.

QUALITY;

We know what's the effort for our partners and our users. And we know what it takes. Agriculture gives life to environment. We are keep trying to give better quality for agriculture.

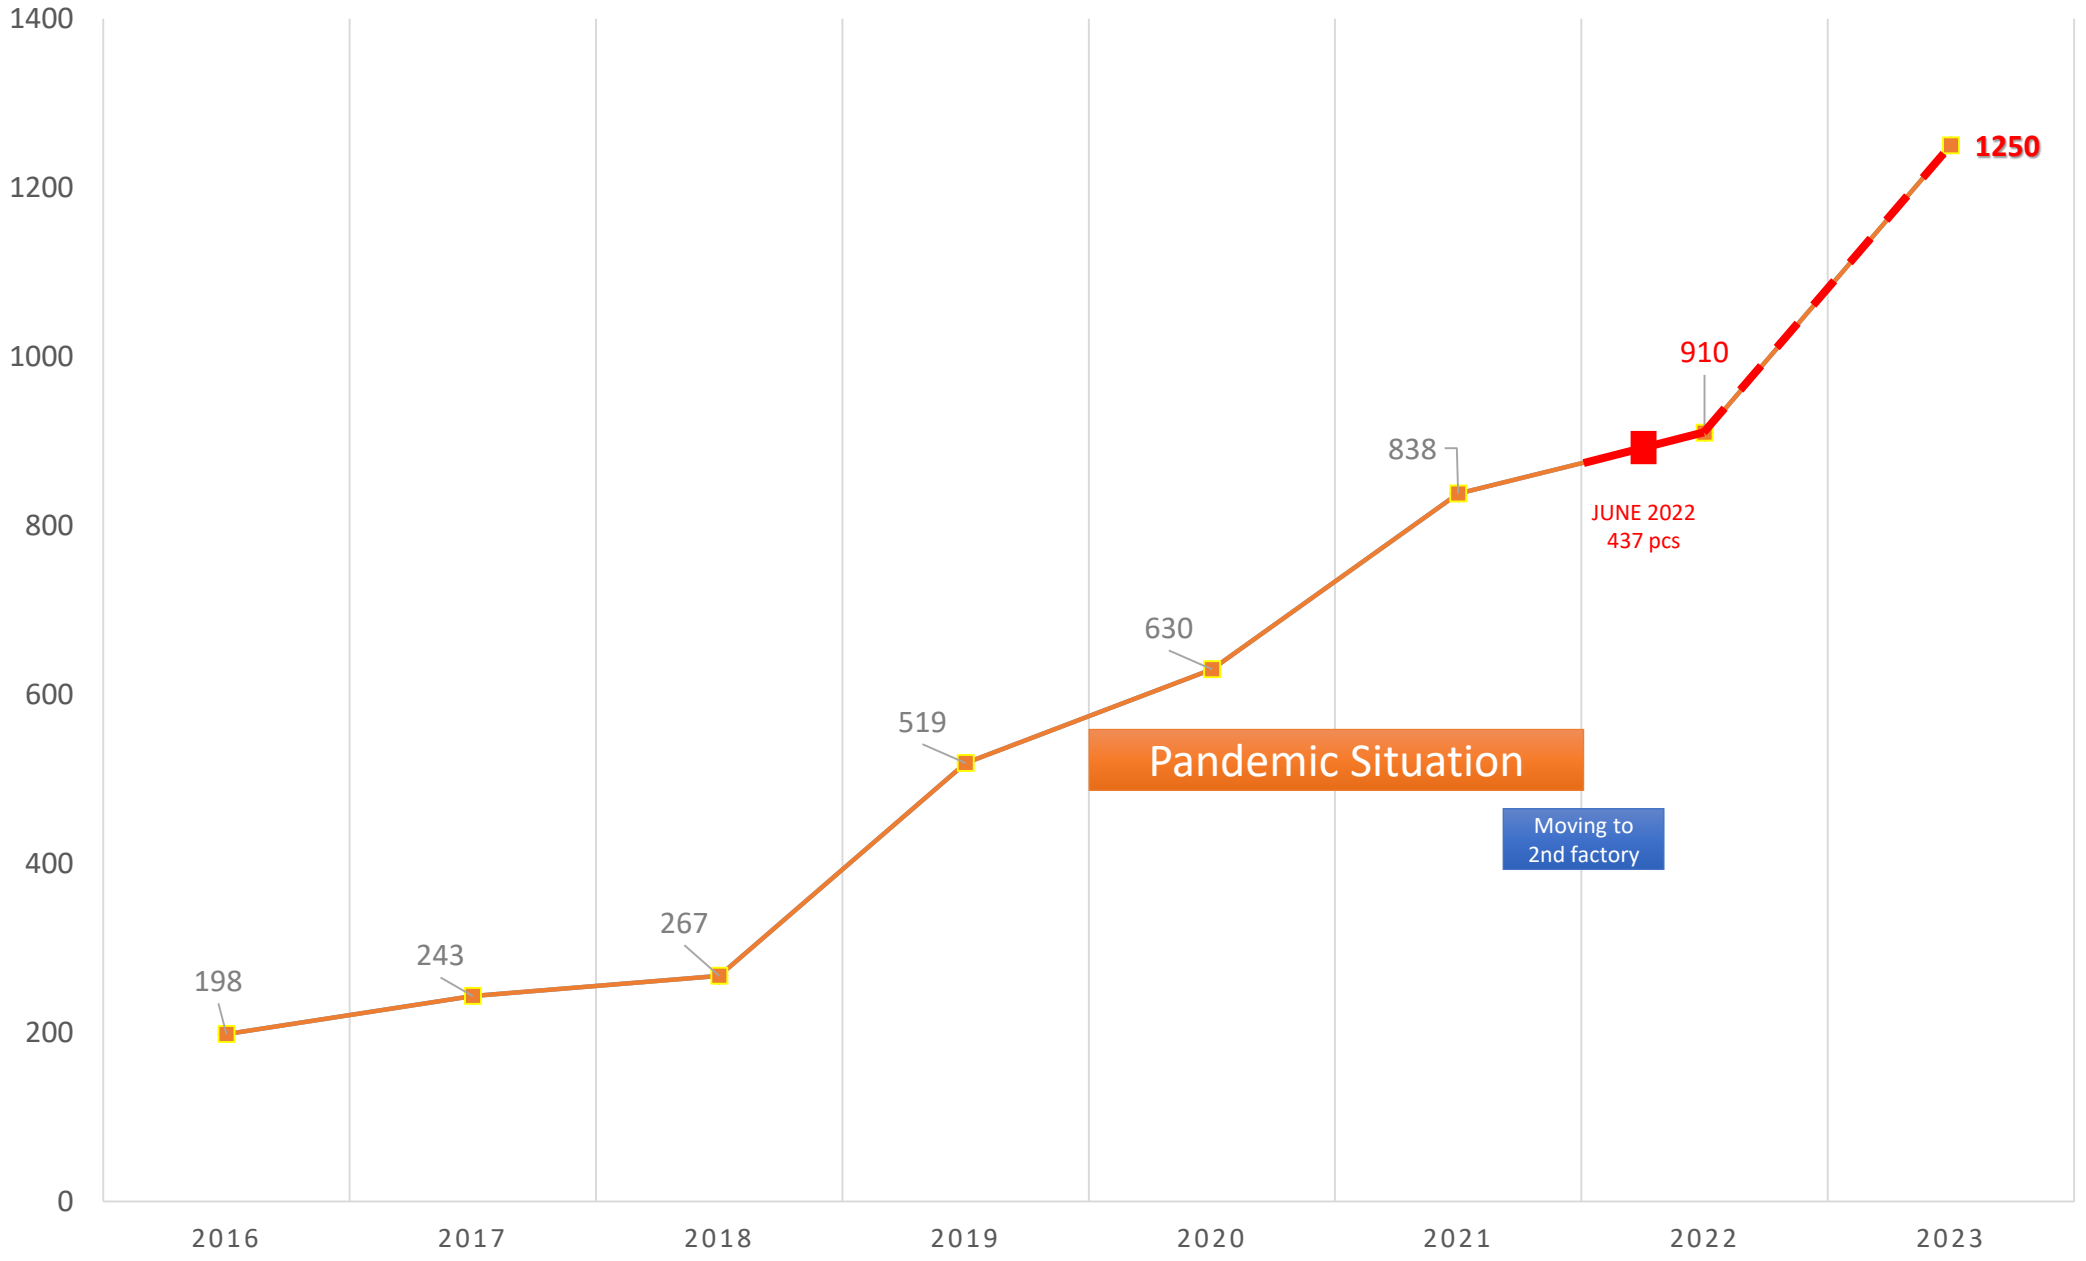

DESIGN;

Design is a signature. Being strong is not enough for us. If you see a palaz product you can believe your eyes.

Finally They Meet  
**POWER & DESIGN**

(LAST 6 YEARS)

# HOW

## Assembly Line Method

All components of product which are made by Palazoglu and purchased are coming to assembly line. This is important for industrial arrangement of machines, equipment, and workers for continuous flow of workpieces in mass-production operations. Product flows on line step by step and every step have to be quality confirmed for the next one.

# WE

## Powder Coating Quality

Sidewalls and chassis are Palazoglu made. After production process they all goes to powder coating. This is then baked in a curing oven to achieve a smooth coating. it is more resistant to chipping, scratching, and other wear because of the thermal bonding it undergoes during curing, and because it can be applied in much thicker layers.

# ACHIEVE

## Material / Product Analyze

Palazoglu is making all metal work for trailer. Like axle, sidewall, chassis, barriers etc. In this case, to be sure about quality we supply raw material from premium suppliers with quality reports. R&D department is making calculations and testing the design of trailer with supplied product to be ready to heavy conditions.

# THAT

## Process Control For All Stages

We trust our product cause we saw every stages, we know how it born. All components are producing on different lines and all lines has responsibilities to confirm component. Qualified and experienced directors confirm the component for assembly line according to R&D department specifications and tolerances.

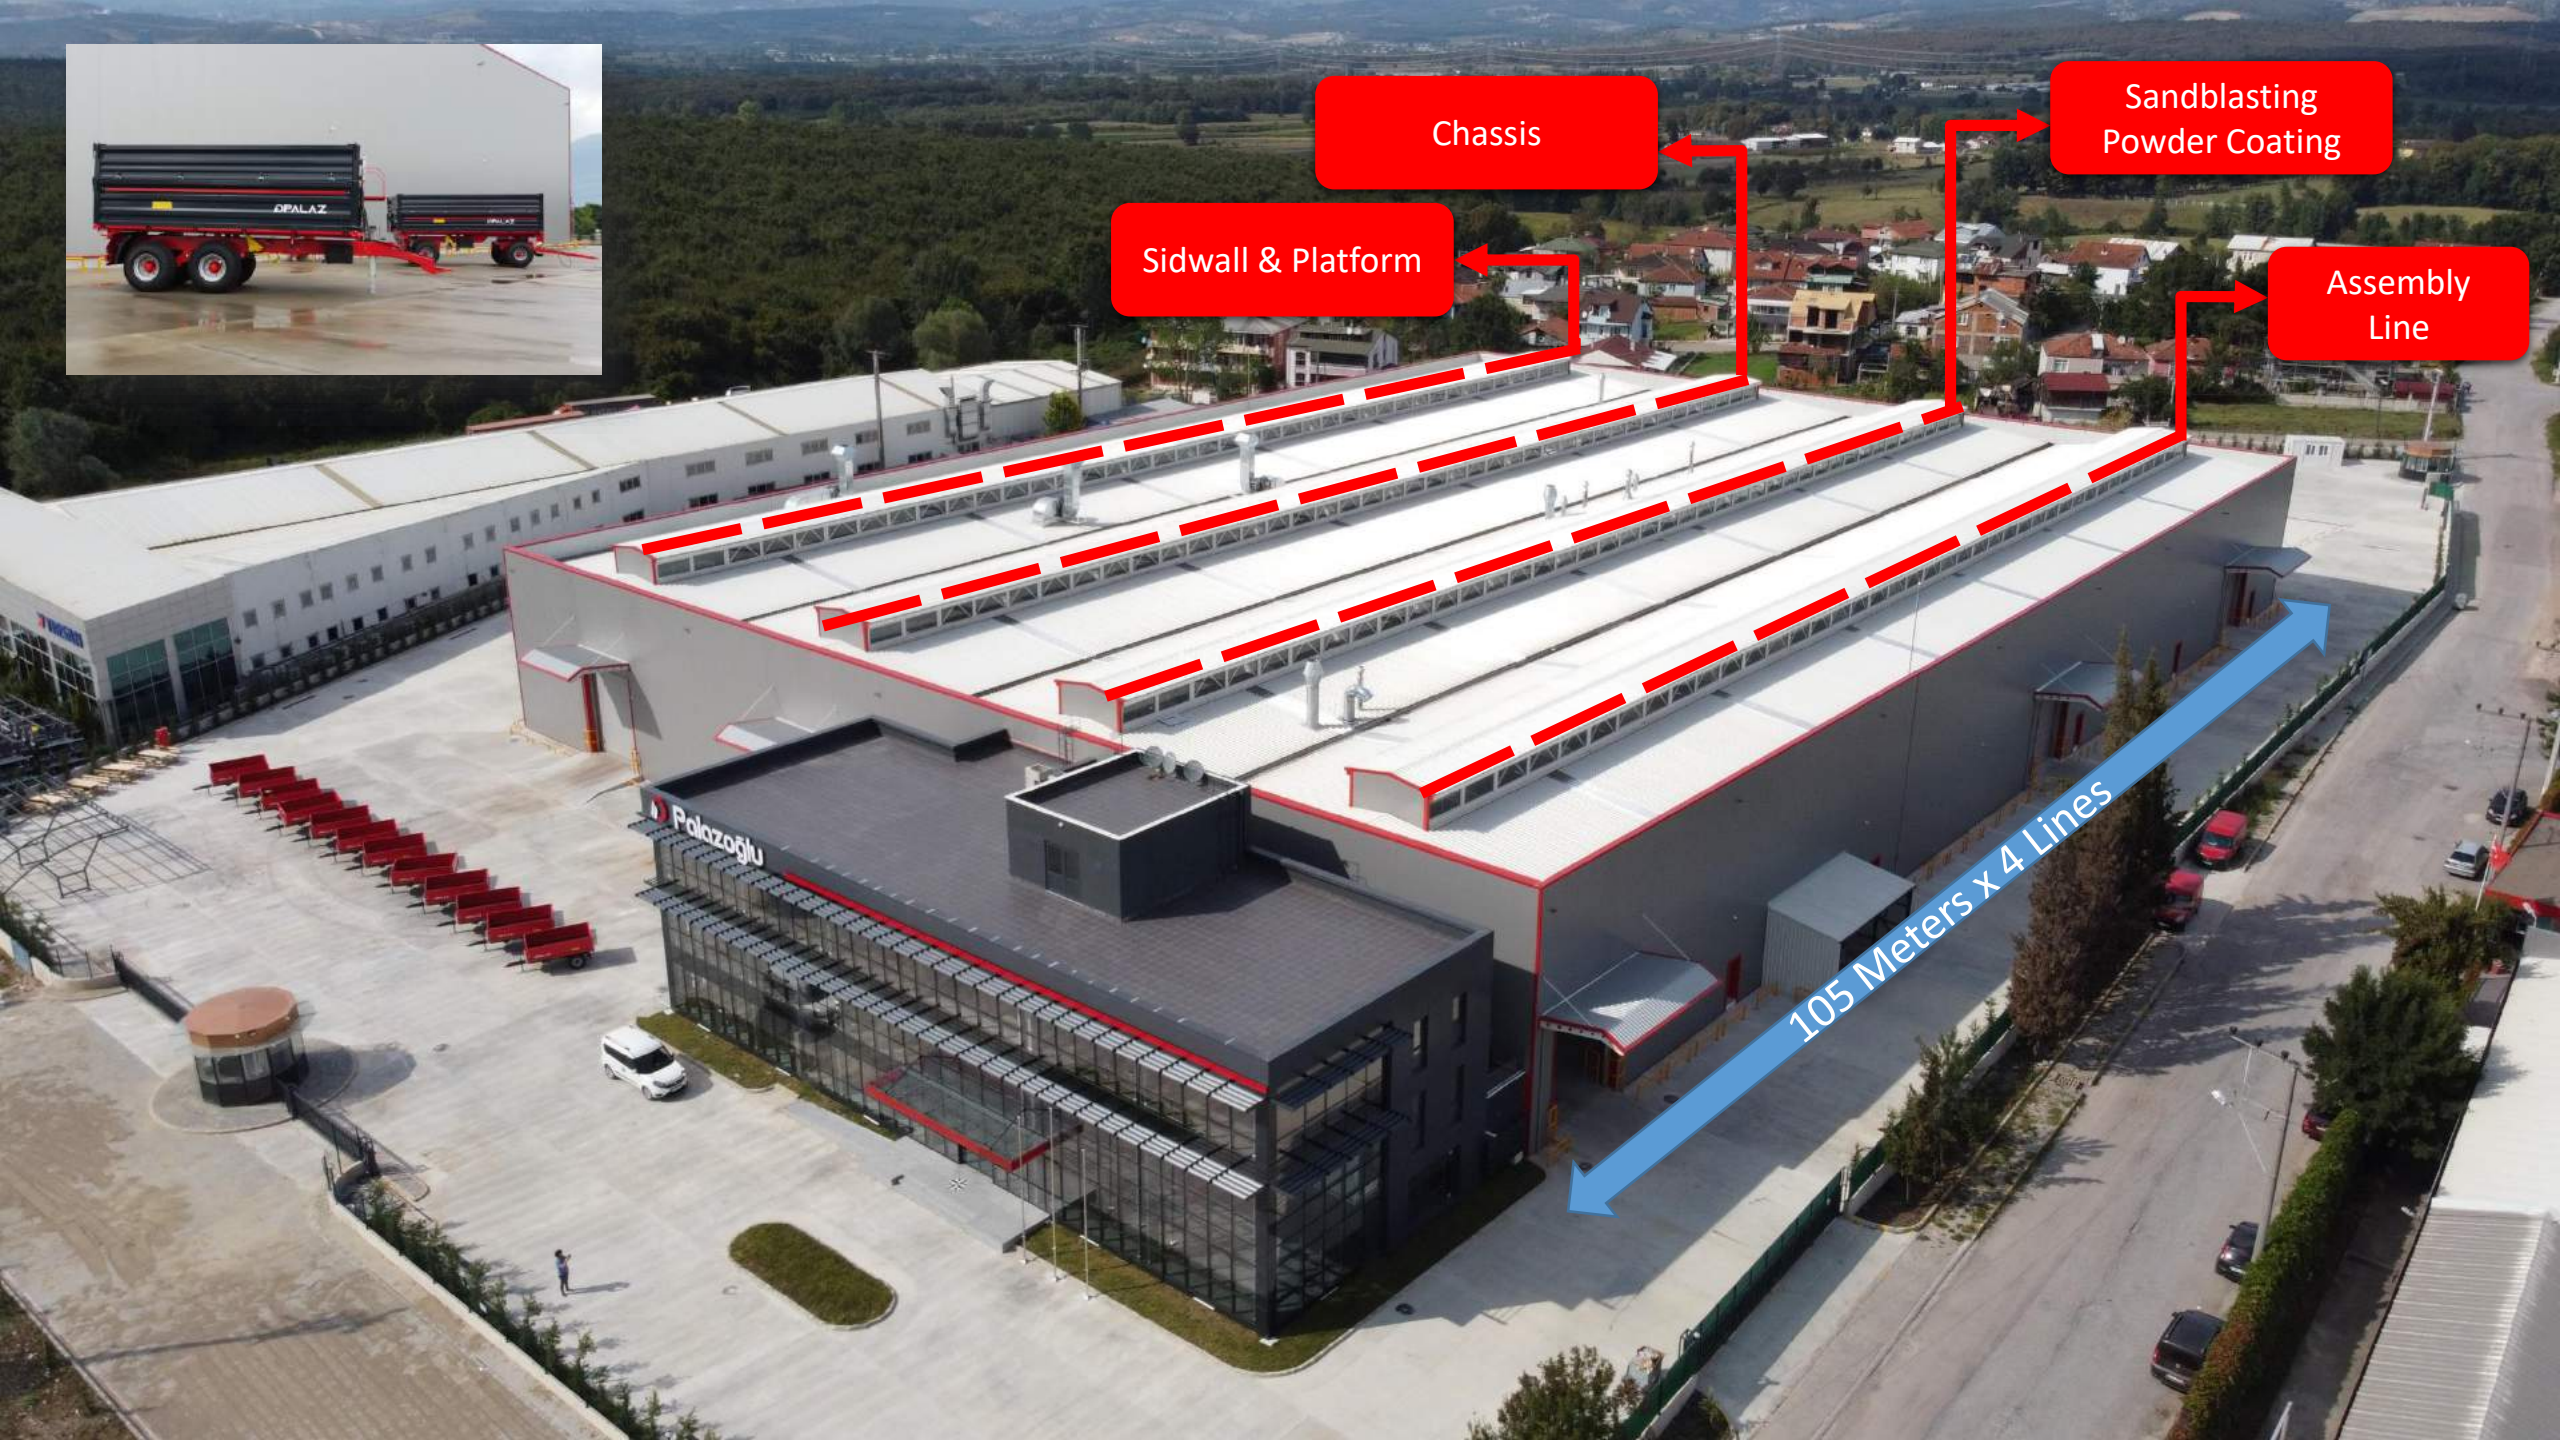

Chassis

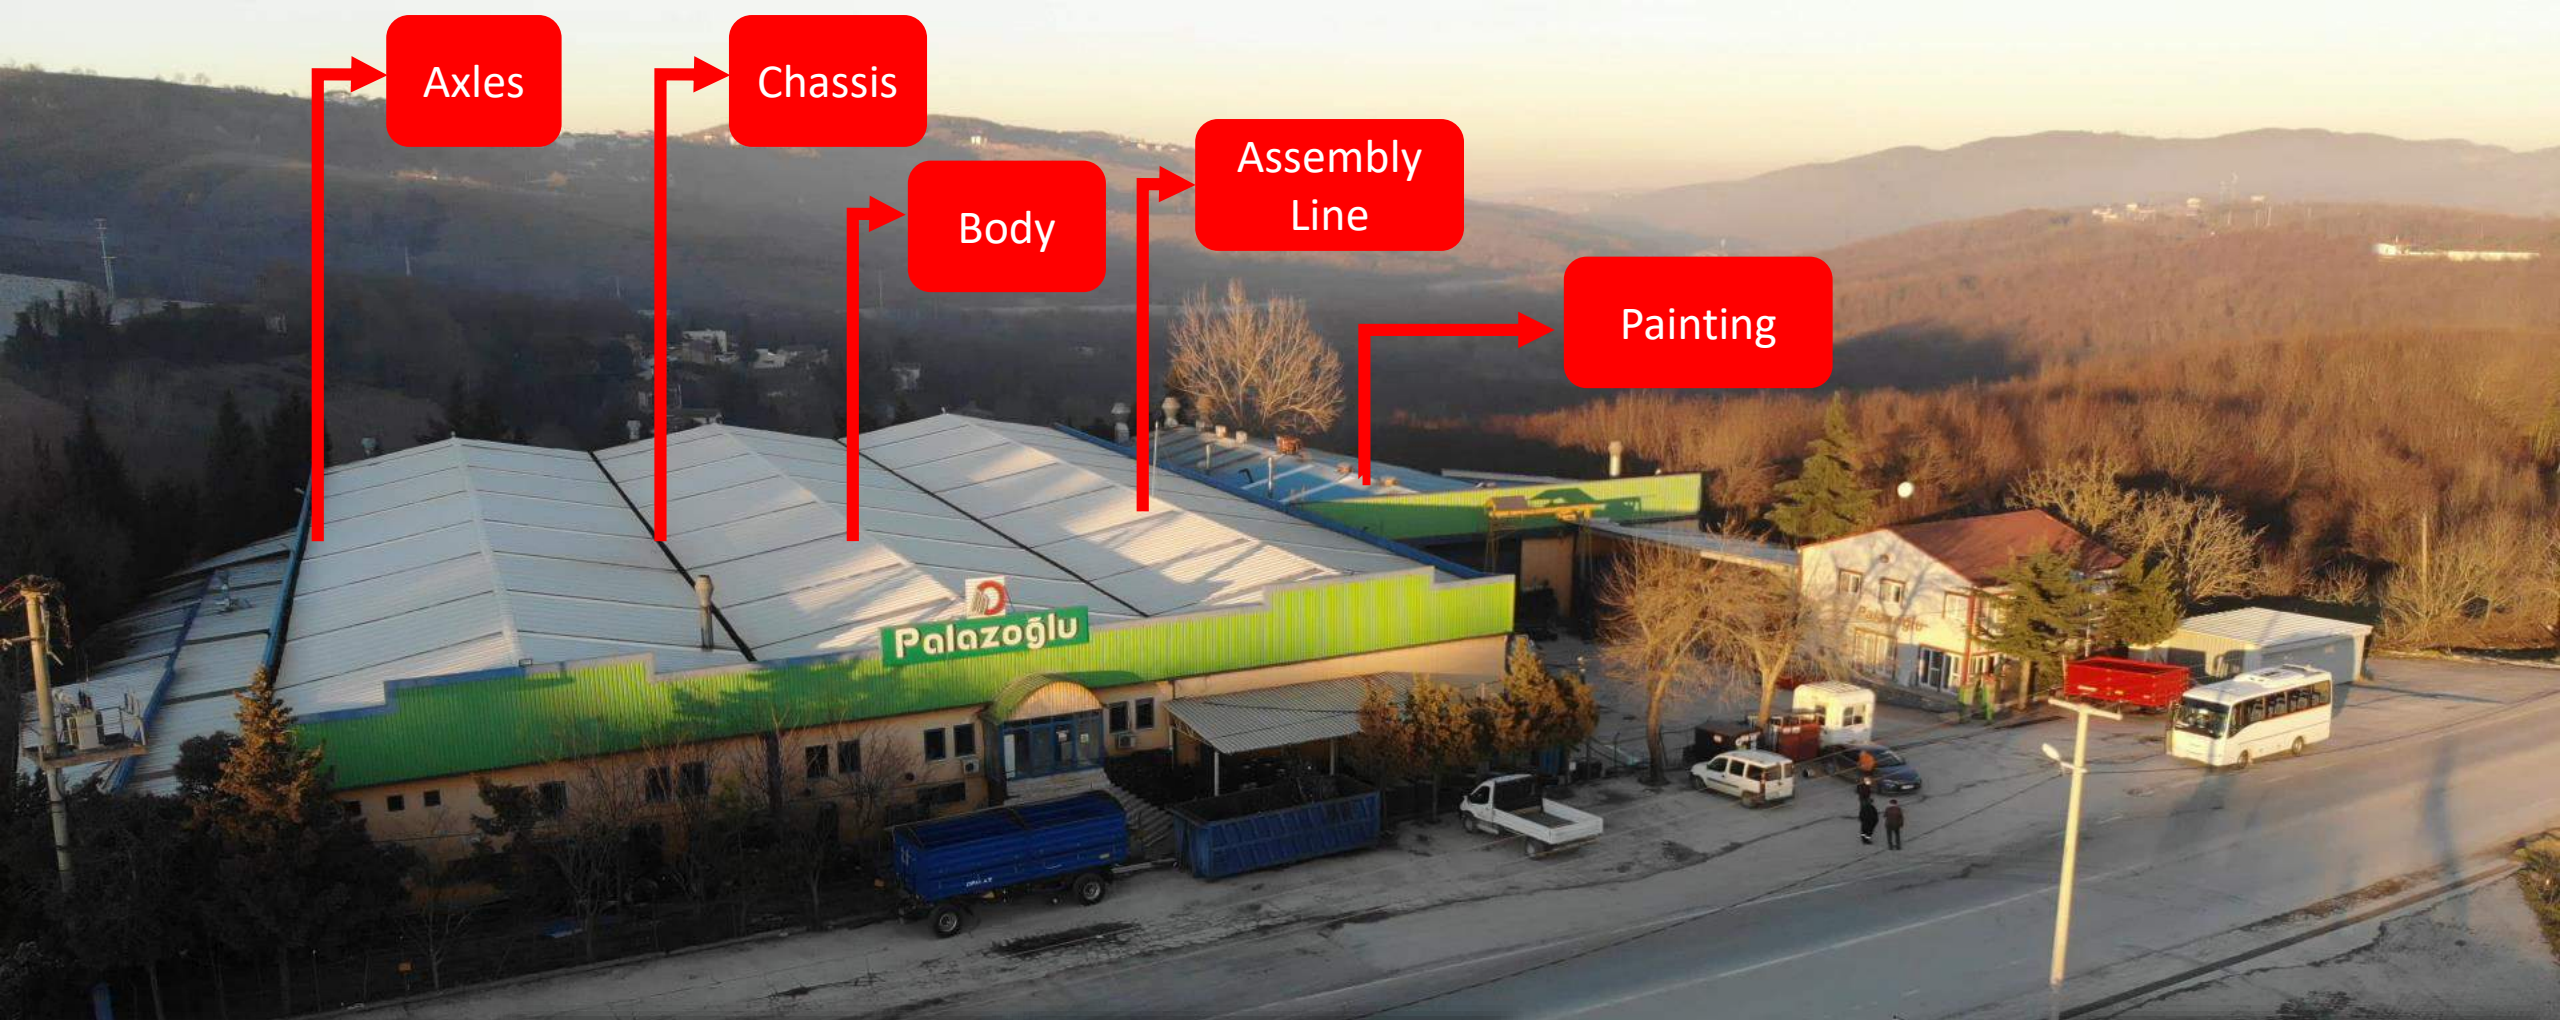

Sidwall & Platform

Sandblasting  
Powder Coating

Assembly  
Line

105 Meters x 4 Lines

Palazoglu product range completed 167/2013/EU tasks successfully and type approval for EU countries. And registered as a trailer manufacturer with unique WMI.

Palazoglu axles has 2015/68/EU Test Results

Drawbar and Towing Eye Have ECE R55 Certificates
