Dianel® Software

MICROSCOPES with DIANEL®-MICRO SOFTWARE - BEST SOLUTION FOR HEMOSCANNING (NATIVE BLOOD MICROSCOPY)

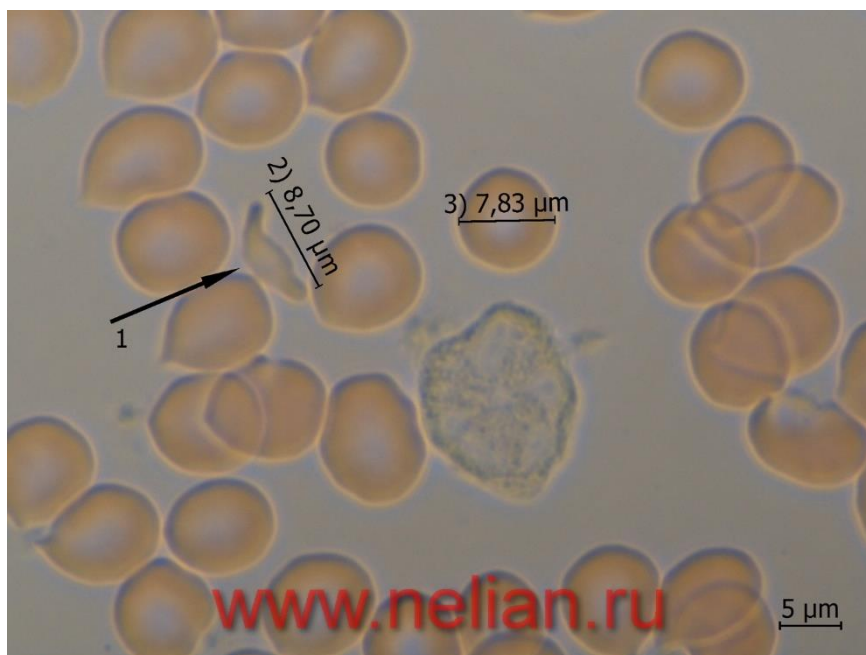

DIANEL®-MICRO SOFTWARE is a professional tool.

The DIANEL®-MICRO program was created for professionals working on the principle of customer focus :

- ✓ Integrative Medicine Clinic,
- ✓ Holistic medicine centers,
- ✓ 5P medicine centers,
- ✓ Nutritionologist,
- ✓ Nutritionists,
- ✓ Dietary supplements efficacy.

DIANEL®-MICRO DEVELOPED ESPECIALLY FOR HEMOSCANNING PURPOSES, constantly improved since 2007 and provides:

- ✓ systematization of studies of micro-objects in an unlimited card index of patients,
- ✓ collection of an anamnesis of the patient's life with entry into the epicrisis,
- ✓ Full-screen blood visualization in high resolution and high quality (1080p, 4K) video,
- ✓ Easy to save Still Images and Sound Motion Picture (or Muted) directly into the patient file,
- ✓ Measurement and enumeration of blood cells and pathogenic plasma components,
- ✓ Real measurement of clinically relevant blood parameters increases the reliability of the study,
- ✓ **Prescribing dietary supplements, drugs and a personalized health program,**
- ✓ Automated preparation of various blood smear assessment protocols,
- ✓ dynamic monitoring of the patient's condition,

- ✓ comparative smear analysis to monitor the effectiveness of the rehabilitation program.
- A high grade of visualization allows you to motivate the patient** to use the recommended rehabilitation program - physiotherapy, drugs and health products. **Extensive patterns built in software** allow flexibility in conclusion containing:
- ✓ **The results of a qualitative scientifically based assessment and measurements of blood** (Erythrocytes, Lymphocytes, Platelets, Lymphocytes, Fibrin, Rheology, Hepatopathy, Immunopathy, Plasma, Parasitoforms, ...),
 - ✓ **The list of possible additional studies provided in your clinic** or in partner medical organizations (clinical tests, functional diagnostics and instrumental types of research, consultations of speciality doctors),
 - ✓ **Recommendations for health improvement and rehabilitation** (exercise therapy, massages, reflexology, kinesiology, ILBI, Therapeutic diets, Weight loss, recommendations for Sanatorium-and-Spa treatment, the **Use of dietary supplements and other drugs**, etc.)
 - ✓ Existing templates editor, you can create new ones, according your specifics.
- It is enough for the doctor to select the results and recommendations that are personally suitable for the patient.
