

STRETCH HOOD FILMS

OK Ambalaj manufactures 100% recyclable Stretch Hood Film that tightly secures products to pallets for ease of use in high-speed lines using automated pallet packaging systems. Stretch Hood Film keeps loads in storage and transit covered and protected from dust, dirt, and moisture. Its superior seal strength and excellent tear and puncture resistance safeguard against trauma and product tampering, while also offering 5-6 sided protection.

1. Opening up 2. Winding up 3. Stretching 4. Covering 5. Underfolding

The transparent film allows for high brand visibility and lets product codes be scanned without the need to open the pallet, making logistics easy. With a max film circumference of 5400 mm and an engineered stretch ratio of up to 160%, Stretch Hood Film is strong and adaptive enough to palletize large loads with ease. Custom film clarity and printing are also available for Stretch Hood Film.

Product Specifications

- Film Thickness : 60 - 160 mic
- Film Circumference: 5400 mm Maximum
 - Stretch Ratio: Up to 160%
 - Materials: PE, Polyethylene

Roll Dimensions

- Core Options: Fiberboard & PVC
- Inner Core Diameter: 3" - 6" (76 mm - 152 mm)
- Roll Outer Diameter: min 400 mm max 1000 mm

Product Performance

- Superior seal strength
 - 5-6 sided protection
 - High film clarity
- Excellent tear and puncture resistance

Optional Features

- Printing: 1 color on available print area
- UV one-year protection

Market Applications

Appliances & Electronics

Building Materials

Beverage

Chemical & Petrochemical

Food & Pet Food

Industrial Salt & Minerals
