## WHO WE ARE...

A journey of printing and packaging business began in 1992, Harman has proved a name of a partner for life. Along the way with constantly improving trust and quality in serving to domestic and overseas markets, we are re-synthesizing the heritage and intelligence of how-to-print and how-to-pack.

The company runs the operation and production facilities in its BRC certified premises of a 8.000m<sup>2</sup> location in Beylikdüzü / Istanbul. Harman serves and answers to its customers for their requests and orders from Pre-press to logistics with its team of professionals and the highest quality equipment.

Investing on state-of-the-art technology and keeping up-to-date with innovative packaging solutions in accordance with market trends and demands are the elements of our vision to carry our business onto further decades.

## WHAT WE DO...

We specialised in Custom Packaging serving to the major sectors food and beverage, textile, cosmetics - hygiene, and horticulture with : Boxes, Sleeves, Displays, Trays, Showcases, Gift sets, Labels, Bags and Promotional materials.

Print of offset presses on various and specially treated cardboards, biodegradable boards, ovenable boards, papers, plastics. Treatments and finishings with PE coating, Varnishing, UV coating, Metallizing, Embossing, Windowing, Foil stamping, Perforation, Barcoding, Custom Die-cut, side gluing, 4 point gluing and much more.

The company has established and applies quality management systems for food and non-food Packaging production. We will remain to add value and customize your packaging.
