

TWINLOCK

SELF-ADHESIVE SLEEVES

TWINLOCK FACTSHEET

- Eliminates the need for tape
- Significant financial savings
- Consistent print results
- Greater accuracy than sleeve + tape
- Excellent registration
- Enables increased print speeds
- Absorbs bounce better
- Sustainable, less waste
- Consistent adhesion & compressibility
- Easily integrated in your mounting department
- Quicker mounting of plates
- Standardise the mounting procedure
- Unique quality control; all sleeves are laser measured

SOFT	MEDIUM	HARD
CUSHION AVAILABILITY		
	Twinlock eliminates the need for tape	
	Efficiency increase in the mounting department; time savings up to 40%	
	Consistent print results	
	Permanent adhesion & compressibility	
	Twinlock eliminates your tape waste and thus improves your Carbon Footprint	
	ROI after 25 times of usage	

INCREASE PRESS SPEED

Twinlock sleeves drive you to top speed while printing accurately and consistently.

The perfect surface and the fastest recovering polyurethane foam in the world, is the ideal combination for high speed printing. Most Twinlock users are able to increase their print speeds significantly.

Twinlock also reduces bounce in the press, due to its unique compressibility. Unlike standard closed cell foam tapes, Twinlock does not have a memory and recovers quicker during printing. Ask us for references and we will be more than happy to provide you with them.

FULL HD CERTIFIED

Receiving this Full HD certificate acknowledges that we are performing among the best in our field. Our Twinlock sleeves enable you to reach exceptional print results including smoother and sharper images.

AWARD WINNING PRODUCT

Twinlock won the Flexographic Technical Innovation award. The award was given by the FTA (Flexographic Technical Association).

This award was a great achievement especially when received from such a well known and professional organisation. The development of Twinlock could only have taken place with the help and input of many printers in the industry. Together we have been able to develop a fantastic and innovative product, which is now being used in more than 80 countries.

POLYMOUNT

CREATORS OF REUSABLE SOLUTIONS

Polymount International was founded in December 2002. The company philosophy is to create products that enable flexo printers to save money on their consumables, become more efficient and optimise print quality.

Polymount manufactures two main products, one of which is the Twinlock self-adhesive sleeve. The other is an automated printing plate cleaner. Polymount is the global market leader with these products.

Polymount has several sales offices, manufacturing sites and exclusive distributors outside The Netherlands.
