TECHNICAL SPECIFICATIONS

- 7/24 protection
- 360° continuous or in a specific sector protection
- Independent operation from drone size as detection is made over RF spectrum (independent of RADAR systems)
- Spectrum monitoring and scanning ability
- Low power and energy consumption
- Programmable software defined radio
- 500 meters detection / 1500 meters active protection
- Upgradable drone takeover control capability

GENERAL SPECIFICATIONS

- Easy to carry (portable)
- Quick assembly-disassembly
- Delivered as fixed or portable
- Harmless to intense signal traffic
- Unaffected by intense signal traffic
- Easily adaptable for new drone brands and models
- Modular Structure Suitable for Different Environments and New Adaptations

USAGE AREA

- Buildings in city centers
- Collective organizations
- Military units in countryside
- Borderlands
