

BNS KALIP

KALIP BİZİM İŞİMİZ

Moulding is our job

Who are we?

Our company was found in 2001 by Bünyamin Kara in Turkey. We have produced Pet Blowing Moulds, Preform Moulds, Injection Moulds since then. Our company is specialized in the production of Pet Bottle Moulds – Pe Moulds – Spare parts in time.

We cover your demands with 3-4-5 axis CNC Milling Machines. Our machines have different sizes and capacities. We built the facility of Anodized Coating in favor of producing the aluminium molds and the spare parts. Thanks to this facility, we can now produce best quality molds and spare parts.

Our collection includes moulds belonging to over 100 machine models thanks to the archive which consists of the moulds we have been creating since 2001. Our archive keeps being updated. Our research and development team follow closely the technological developments.

We're in the effort of providing the best services for you with our expert team...

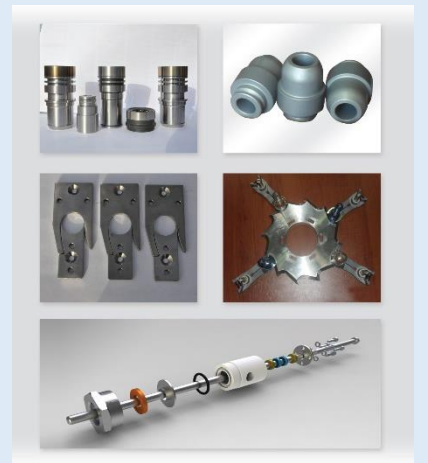

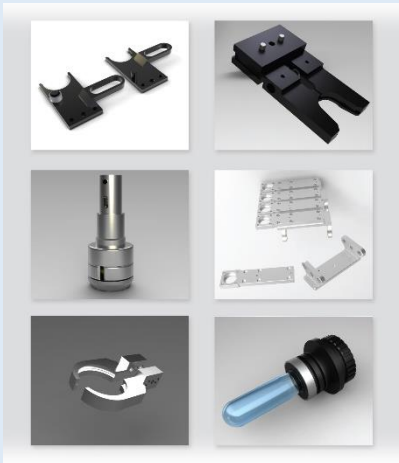

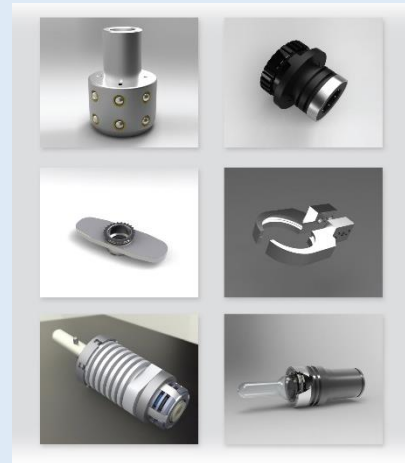

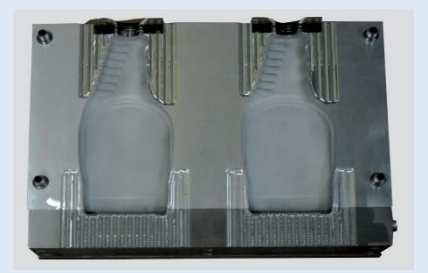

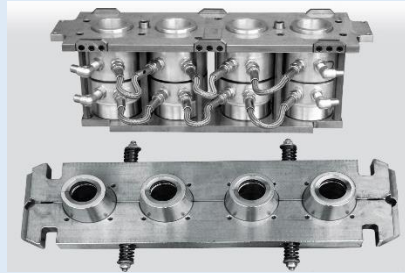

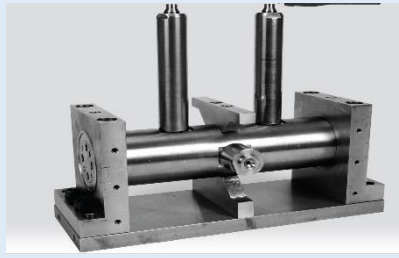

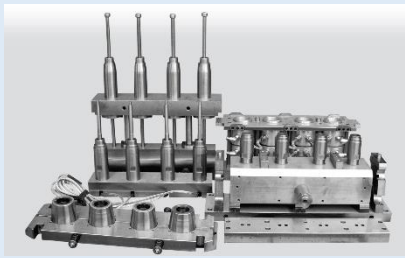

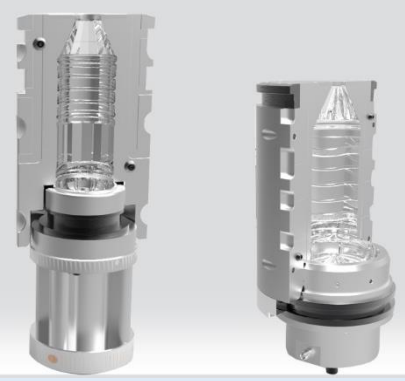

Special order is acceptable.

If you require any further information, feel free to contact us.
