PE - FOOD STRECH

FEEL THE MAGIC OF PE-FOOD STRECH

Use of PVC food stretch is abolished as it was determined to be bad for health in Europe and many other countries presently. After closely monitoring the global market, technology and environment, our firm foreseen that use PVC food stretch will be abolished and developed PE food stretch and obtained certification for it in order to offer to the consumers with low costs. Many barriers such as perspiration, smelling and opening and tearing in cold and hot weather are eliminated in this product that gives consumer requirements utmost importance.

- It is easy to use.
- Durable against perforation and tearing.
- It is very safe to use.
- Offered in different colors.

Teknik Özellikler			
Ürün ismi	Kalınlık (mikron)	En (cm)	Uzunluk (metre)
Manuel	6 -12 mik.	30-35-40-45 cm	100 - 300 mt
Otomatik	6 - 12 mik.	30-35-40-45 cm	600 - 1500 mt

INDUSTRIAL STRECH

FEEL THE MAGIC OF INDUSTRIAL STRECH

Industrial Stretch Films completely protect the products from wetting, dusting and spreading and they are resistant against tears. They can be used in packing phase in all kinds of industrial facilities. They protect the products from external factors such as hot, cold, rain, dust and contamination. The product does not gather any dust or dirt since its external surface is smooth and shiny. It prevents the pallets from sticking into each other. It is transparent, light and economic and resistant against all sorts of weather conditions. It can be used in the packing of all types of products. It is not affected from sharp or pointed corners due to its flexibility and it does not need any rope or hoop and it is safe and economic in the packing of bottled products.

- Safe.
- Economic.
- Protective.
- Durable.
- Light.
- It is very safe to use.
- Flexible.
